

Super SA Select

FEES AND UNIT PRICES

At Super SA we manage costs carefully to keep fees as low as possible and we have an excellent track record in that regard. For many years now, while costs continue to increase, the administration fee has remained unchanged. As of 1 January 2020 some fees will increase, however we're pleased to advise that they will remain below the Industry Funds average¹ and compare favourably with other super funds. These updates are detailed in the table below.

Fee changes effective 1 January 2020

Fee type	Current	New	↑↓	Purpose
Administration	\$1.35 per week, (\$70.20 per year)	\$1.35 per week, (\$70.20 per year) PLUS 0.05% of account balance per year – capped at \$325 per year.	↑	To cover the costs of providing you with a competitive level of services, products and benefits. This is the first increase since inception and aligns favourably with other super funds.
Family Law fee – request for information	\$60 per request	\$70 per request	↑	To reflect processing costs. It's important that, as these services are used by only a small proportion of members, the fees cover the processing costs – so they are covered by those who use them.
Family Law fee – on splitting entitlement	\$89 per party	\$100 per party	↑	

As the administration fee update is the one that will affect all members, here is some additional information showing how it applies to various account balances.

New administration fee - various account balances

Example 1: If you have \$50,000 in your account, you'll pay \$95.20 per year. That's made up of \$70.20 + \$25 (0.05% of \$50,000). **This is \$79.80 less than the industry average¹ of \$175.**

Example 2: If you have \$250,000 in your account, you'll pay \$195.20. That's made up of \$70.20 + \$125 (0.05% of \$250,000). **This is \$304.80 less than the industry average¹ of \$500.**

Unit pricing changes

When you or your employer make contributions into Super SA Select, the dollar value is expressed in numbers of units. Each investment option has its own unit price. The value of each unit is generally determined each business day and is based on the valuation of the underlying assets within each investment option.

Super SA, in keeping with standard industry practices, is reviewing the way in which unit prices are applied to your account. The review is expected to be finalised by mid 2020, and any changes to unit pricing practices that result from the review are expected to be introduced shortly after. Further member information will be available at supersa.sa.gov.au closer to the time.
