2. Contribution Rate Change

I hereby elect to vary my after-tax contribution rate to Triple S.

Please note: There is no limit on the maximum percentage of after-tax contributions that you are able to make. However, the percentage needs to be a whole percentage unless you are making a contribution of 4.5%.

You are entitled to receive an employer contribution of 10% if you contribute 4.5% or more of your salary after tax.

When working out the percentage of after-tax contributions that you wish to make, you need to remember that your after-tax contributions are based on a percentage of your salary before tax. Therefore, you need to ensure that you do not elect to contribute an amount greater than your take home pay.

Please tick one of the following:

0% 1% 2% 3% 4% 4.5% 5%

6% 7% 8% 9% Other (please specify _____%)

Notes: Only active Triple S members can vary their after-tax contribution rate. An active member is defined as member who is contributing from their before-tax or after-tax salary; is receiving employer Superannuation Guarantee (SG) contributions; or is on Leave Without Pay. There are no costs involved for members who choose to make contributions, other than the normal Triple S administration fee. You can change your contribution rate at any time and there is no charge for doing so.

3. Tax File Number (TFN)

If you do not provide your TFN, Super SA will be unable to accept any after-tax contributions you make.

Tax file number

If you provide your TFN it will only be used for legal purposes and it will assist in finding and identifying your super entitlements now and in the future. Declining to provide your TFN is not an offence.

4. Member Declaration

- I declare that the above statements are true and correct.
- I understand that the election will remain in force until I notify Super SA in writing of any further changes.
- I understand that if I make after-tax contributions into Triple S, I am unable to claim a tax deduction under section 290-170 of the Tax Act because Triple S is an untaxed fund.
