# **OFFICIAL**

2021-22 ANNUAL REPORT for the South Australian Superannuation Board

# **Appendix: Audited financial statements 2021-22**

## INDEPENDENT AUDITOR'S REPORT

Level 9 State Administration Centre 200 Victoria Square Adelaide SA 5000

Tel +618 8226 9640 Fax +618 8226 9688 ABN 53 327 061 410 audgensa@audit.sa.gov.au www.audit.sa.gov.au

To the Board Member
South Australian Superannuation Board

## **Opinion**

I have audited the financial report of South Australian Superannuation Board for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Superannuation Board as at 30 June 2022, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

# The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2022
- a Statement of Financial Position as at 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Board Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office and the Director, Finance, State Superannuation Office.

# **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of South Australian Superannuation Board. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

# Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 9 of schedule 3 of the *Superannuation Act 1988*, I have audited the financial report of South Australian Superannuation Board for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

• identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the South Australian Superannuation Board's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue

**Assistant Auditor-General (Financial Audit)** 

23 September 2022

#### **Notes to the Financial Statements**

# 1) Objectives and funding

# Objectives of the South Australian Superannuation Board

The South Australian Superannuation Board (the Board) was established under Section 6 of the *Superannuation Act 1988* (the Act) and is responsible to the Treasurer for all aspects of the administration of the Act (Pension and Lump Sum schemes) and the Southern State Superannuation Act 2009 (Triple S Scheme, Flexible Rollover Product and Income Stream), except for investment matters relating to the schemes and products. Under clause 2(1)(d) of Schedule 3 of the Act, the Treasurer declared that the Board act as Trustee of the SA Ambulance Service Superannuation Scheme and be responsible for administering the Trust Deed and Rules.

The Act provides that the Board may make use of the staff or facilities of an administrative unit of the SA Public Sector. The State Superannuation Office, a branch of the Department of Treasury and Finance (DTF), provides administrative services to the Board. The State Superannuation Office adopts the "Super SA" name as administrator of the Board schemes and products. The superannuation legislation also provides for the Board to charge administration fees.

The Board is responsible for payment of the Service Level Agreement (SLA) Fee to DTF for costs incurred in the administration of the schemes and products. This amount is then recouped from the various schemes and products as per the SLA.

The Board has carefully considered anticipated future expenditure and sets aside money to cover expected future specific costs.

# 2) Significant accounting policies

# a) Statement of compliance

The financial statements are general purpose financial statements. The accounts have been prepared in accordance with relevant Australian Accounting Standards, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the *Public Finance and Audit Act 1987* (PFAA).

The Board has applied Australian Accounting Standards that are applicable to not-for-profit entities, as the Board is a not-for-profit entity. Australian Accounting Standards and interpretations that have recently been issued or amended but are not yet effective have not been adopted by the Board for the reporting period ending 30 June 2022. Refer to note 2(b).

# b) Impact of standards and statements not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2022 reporting period. The assessment of the impact of these new standards and interpretations is set out below.

The Board has assessed the impact of new and changed Australian Accounting Standards Board Standards and Interpretations. There are no Accounting Policy Statements that are not yet effective. The material impacts on the Board are outlined below.

AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard replaces the reduced disclosure requirements previously included in all Australian Accounting Standards with simplified disclosure requirements which will apply to Tier 2 entities.

AASB 1053 Application of Tiers of Australian Accounting Standards will still apply in conjunction with AASB 1060. Application of AASB 1060 will significantly amend the content of Tier 2 financial reports.

The Board is not a Tier 2 financial reporting entity. The Board has assessed the impact of the amendments of AASB 1060, and has determined there will be no impact on the Board's financial statements.

AASB 2020-2 Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard removes the ability for certain for-profit private sector entities to self-assess their financial reporting requirements and prepare special purpose financial statements (SPFS) when they are required to prepare financial statements that comply with Australian Accounting Standards (AAS).

The Board is a statutory authority of the Crown and operates on a not-for-profit basis. The Board has assessed the impact of the new standard on the Board, and has determined there will be no impact on the Board's financial statements.

AASB 2021-1 Transition to Tier 2: Simplified Disclosures for Not-for-Profit Entities

The standard applies to reporting periods beginning on or after 1 July 2021. Earlier application is permitted, provided that AASB 1060 is also applied to the same period. The Standard amends new elements of AASB 1053 and amends AASB 1060 for first-time application to provide not-for-profit entities with optional relief from presenting comparative information in the notes to the financial statements where the entity did not disclose the comparable information in its most recent previous general purpose financial statements. This relief is only applicable where AASB 1060 is early adopted.

Amendments to AASB 1053 highlight that the relief set out in Appendix E of AASB 1053 is available only to for-profit private sector entities.

The Board operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Board, and has determined there will be no impact on the Board's financial statements.

AASB 2020-7 Amendments to Australian Accounting Standards - Covid-19 Related Rent Concessions: Tier 2 Disclosures

This standard applies to reporting periods beginning on or after 1 July 2021. AASB 16 (June 2020) provides a practical expedient to elect not to assess whether rent concessions are lease modifications and allows entities to apply a change in lease payments resulting from rent concessions as per the requirements of AASB 16. This practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and where certain conditions are met. Additional disclosures were required where the practical expedient was applied. AASB 2020-7 amends AASB 16 to include relief for Tier 2 entities from the

requirement of the additional disclosures required by paragraph 60A and introduces these disclosures in AASB 1060.

The Board does not hold any leases therefore AASB 2020-7 does not apply. The Board has assessed the impact of the new standard on the Board, and has determined there will be no impact on the Board's financial statements.

AASB 2020-9 Amendments to Australian Accounting Standards – Tier 2 Disclosures: Interest Rate Benchmark Reform (Phase 2) and Other Amendments

This standard applies to reporting periods beginning on or after 1 July 2021. This Standard amends AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities to provide relief in the first reporting period in which an entity applies AASB 2020-8 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2. An entity is not required to disclose the information that would otherwise be required by paragraph 106(b) of AASB 1060 in respect of the accounting policy changes made in applying AASB 2020-8. See amending briefs on AASB 2019-3 and 2020-8 for further background on interest rate benchmark reform, or the Financial Reporting Update 2020-21 - November 2020.

The Board operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Board, and has determined there will be no impact on the Board's financial statements.

# c) Basis of preparation

The preparation of the financial statements requires:

- the use of certain accounting estimates and requires management to exercise its judgement in the process of applying the Board's accounting policies. The areas involving a higher degree of judgement or where assumptions and estimates are significant to the financial statements, are outlined in the applicable notes,
- accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported,
- compliance with Accounting Policy Statements issued pursuant to section 41 of the PFAA. In the interest of public accountability and transparency, the Accounting Policy Statements require the following note disclosures, which have been included in this financial report, and
- board/committee member and remuneration information, where a board/committee member is entitled to receive income from membership other than a direct out-of-pocket reimbursement.

The Board's statement of comprehensive income, statement of financial position and statement of changes in equity have been prepared on an accrual basis and are in accordance with the historical cost convention except as otherwise noted.

The statement of cash flows has been prepared on a cash basis.

The financial statements have been prepared based on a 12 month period and presented in Australian currency.

The accounting policies set out below have been applied in preparing the financial statements for the year ended 30 June 2022, and comparative information presented.

# d) Comparative information

The presentation and classification of items in the financial statements are consistent with prior periods except where specific accounting standards and/or accounting policy statements required a change.

Where presentation or classification of items in the financial statements have been amended, comparative figures have been adjusted to conform to changes in presentation or classification in these financial statements unless impracticable.

Where applicable, the restated comparative amounts do not replace the original financial statements for the preceding period.

# e) Rounding

All amounts in the financial statements have been rounded to the nearest thousand dollars (\$000).

# f) Taxation

The Board, as a wholly owned and controlled statutory authority of the Crown, is not subject to income tax. The Board is registered for Goods and Services Tax (GST) and GST is recoverable and payable to the Australian Taxation Office (ATO).

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the ATO, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable, and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

# g) Events after the reporting period

Adjustments are made to amounts recognised in the financial statements, where an event occurs after 30 June 2022 and before the date the financial statements are authorised for issue, where those events provide information about conditions that existed at 30 June 2022.

Note disclosure is made about events between 30 June and the date the financial statements are authorised for issue where the events relate to a condition which arose after 30 June and which may have a material impact on the results of subsequent years.

# h) Income and expenses

Income and expenses are recognised to the extent that it is probable that the flow of economic benefits to or from the Board will occur and can be reliably measured.

Income and expenses have been classified according to their nature and have not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction or other event.

The following are specific recognition criteria:

#### Income

Fees and charges are derived from the recovery of administration fees from the superannuation schemes and products which the Board administers. Revenue is recognised when earned.

Interest comprises of the interest received on the loan to the Treasurer (formally the Minister for Finance) and cash and deposits in the Board's Deposit Account held with DTF, which receives interest at the applicable SA Government rate. Interest is recognised when earned.

### Expenses

Administration expenses are the payment of the administration fees to DTF for the provision of services to the Board. This expense is recognised upon delivery of the service.

# i) Current and non-current classification

Assets and liabilities are characterised as either current or non-current in nature. Assets and liabilities that are to be sold, consumed or realised as part of the normal operating cycle even when they are not expected to be realised within twelve months after the reporting date have been classified as current assets or current liabilities. All other assets and liabilities are classified as non current.

# j) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position includes cash and deposits in the Board's Deposit Account held with DTF.

For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and cash equivalents as outlined above.

Cash is measured at nominal value.

# k) Receivables

Receivables include amounts owing from services provided prior to the end of the reporting period that are unpaid at the end of the reporting period. Receivables include all amounts not received relating to the normal operations of the Board.

Refer to Note 14 regarding the Loan Receivable.

# l) Payables

Payables include creditors and accrued expenses.

Creditors represent the amounts owing for services received prior to the end of the reporting period that are unpaid at the end of the reporting period. Creditors include all unpaid amounts due relating to the normal operations of the Board.

Accrued expenses represent services provided by other parties during the period that are unpaid at the end of the reporting period and where an invoice has not been received.

All payables are measured at their nominal amount, are unsecured and are normally settled within 30 days from the date of the invoice or date the invoice is first received, as per Treasurer's Instruction 11.

# 3) Administration expenses

(1284)

5 739

7 023

7 023

The purpose of the General Reserve is to account for under and over spend in office expenditure, to provide for project expenditure as required from time to time and to provide funding for the triennial Board Election.

# 10) Related parties

The Board is a statutory authority and is wholly owned and controlled by the Crown.

Related parties of the Board include all key management personnel and their close family members, all Cabinet Ministers and their close family members and all public authorities that are controlled and consolidated into the whole of government financial statements and other interests of the Government.

# a) Key management personnel

The key management personnel of the Board include the Treasurer, the Board members, and the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Board.

The Compensation disclosed in this note excludes salaries and other benefits the Treasurer receives. The Treasurer's remuneration and allowances are set by the Parliamentary Remuneration Act 1990 and the Remuneration Tribunal of SA respectively and are payable from the Consolidated Account (via the Department of Treasury and Finance) under section 6 the Parliamentary Remuneration Act 1990. The Chief Executive and Executive Leadership Team, State Superannuation Office, are compensated through the Department of Treasury and Finance so their compensation is also not included below.

# b) The South Australian Superannuation Board

Alison Kimber (Appointed 19/12/2018)

Leah York (Retired 29/09/2021)

Dascia Bennett (Retired 04/05/2022)

# e) Compensation

	2022	2021
	\$000	\$000
Salaries and other short-term employee benefits	238	246

Compensation costs are included in administration expenses.

# 11) Reconciliation of cash and cash equivalents

Net cash provided by operating activities

For the purpose of the statement of cash flows, cash and cash equivalents includes cash and deposits in the Board's Deposit Account held with DTF. Cash at the end of the reporting period as shown in the statement of cash flows is reconciled to the related item in the statement of financial position as follows:

	2022 \$000	2021 \$000				
Cash and cash equivalents	10 696	1 721				
Reconciliation of total comprehensive result to net cash provided by operating activities:						
Total comprehensive result	(1 284)	4 401				
Movement in operational assets and liabilities						
(Increase) in receivables	5 309	$(10\ 659)$				
Increase in payables	4 950	3 602				

# 12) Financial instruments

The Board holds all cash in a Deposit Account with DTF which receives interest at the applicable SA Government rate. The Board's current receivables and payables are non-interest bearing, while its Loan Receivable is interest bearing. There are no fair value differences as carrying values approximate fair value and there is minimal exposure to interest rate or market risk due to the nature of the financial assets and liabilities held.

8 975

(2656)

#### Interest Rate Risk

Cash and cash equivalents, which represents cash and deposits held in a Deposit Account with DTF, earn a floating interest rate, based on the applicable SA Government rate. The carrying amount of cash and cash equivalents represents fair value.

The Board does not have any assets that are past, due or impaired and credit risk is limited to the Southern Select Corporation Loan Arrangement (Refer Note 14).

The Board's exposure to liquidity risk is insignificant based on past experience and current assessment of risk.

# 13) Events after the reporting period

There were no significant events after the reporting period.

# 14) Southern Select Corporation Loan Arrangement

At the 8 June 2012 Board meeting, the Board agreed to provide funding of \$500 000 from its then Capital and Development Reserve account for the purpose of establishing a new fund; Super SA Select (the Fund).

The terms of the loan are set out in Schedule 2 of the *Public Corporations (Southern Select Super Corporation) Regulations 2012* (the Regulations) and the tri-partite Funding Deed between the Board, the then Minister for Finance and the Southern Select Super Corporation (the Trustee). The Funding Deed was executed on 28 June 2013 with a drawdown date of 5 July 2013.

The repayment of the loan by the Trustee from the Fund, together with interest, will be in accordance with Schedule 2 of the Regulations. If at the end of the financial year the Fund has a net surplus, defined as Net Assets exceeding Liability for Accrued Benefits Allocated to Members' Accounts, the interest receivable in that year must be received on or before 31 July of the following financial year. If the Fund does not have a net surplus at the end of the financial year, the interest receivable for that year will be capitalised into the principal amount receivable. At the end of 2021-22 the Fund did not have a net surplus, but due to the current zero SA Government interest rate there was no interest capitalised (2021: \$Nil).

Principal repayments are required when administration fees charged to members of the Fund for the financial year exceed the cost of the administration of the Fund (other than investment management charges). For 2021-22 there was no principal repayment required (refer to the Fund's Financial Report) (2021: \$Nil).

# 15) Strategic Projects

Super SA sets an annual strategic projects expenditure budget, which funds the Transformation program each year. Included in this program are infrequent and substantial projects, including system upgrades, replacements, product, structural and governance changes.

The annual budget for the Transformation program is set by the Board's strategic direction and is governed by the Super SA Project Board.

The Board's Strategic Project expense (Note 3) reflects the reimbursement of Project costs incurred by DTF.

#### Certification of the financial statement

# We certify that the:

- · financial statements of the Board:
  - are in accordance with the accounts and records of the authority,
  - comply with relevant Treasurer's instructions,
  - comply with relevant accounting standards, and
  - present a true and fair view of the financial position of the authority at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Board for the financial year over its financial reporting and its preparation of financial statements have been effective.

To the Board Member

South Australian Superannuation Board

South Australian Superannuation Scheme

## **Opinion**

I have audited the financial report of South Australian Superannuation Scheme for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Superannuation Scheme as at 30 June 2022, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

# The financial report comprises:

- a Statement of Financial Position as at 30 June 2022
- an Income Statement for the year ended 30 June 2022
- a Statement of Changes in Member Benefits for the year ended 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Board Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office and the Director, Finance, State Superannuation Office.

# **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of South Australian Superannuation Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

# Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 20AB(2) of the *Superannuation Act 1998*, I have audited the financial report of South Australian Superannuation Scheme for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

• identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the South Australian Superannuation Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue

**Assistant Auditor-General (Financial Audit)**

#### **Notes to the Financial Statements**

# 1) Objectives and funding

# a) South Australian Superannuation Scheme

The South Australian Superannuation Scheme (the Scheme) is a voluntary superannuation scheme which exists pursuant to the *Superannuation Act 1988* (the Act). It previously existed in different forms under various other legislation. The Act provides for superannuation benefits for persons employed by the South Australian Government and other prescribed persons and makes provisions for the families of such persons. It is not available to Members of Parliament, the judiciary or to police officers who are each provided for under separate legislation.

Contributors to the Scheme may be either old scheme contributors, who are entitled to a pension based benefit, or new scheme contributors who are entitled to a lump sum based benefit. The old scheme contributors segment of the Scheme was closed to new members in May 1986. The new scheme contributors segment of the scheme was closed to new members in May 1994.

Contributors make contributions from after tax salary based on a percentage of their salary, with the standard contribution rate being between 5 and 6 per cent. Contributors may elect to vary their contribution rate in accordance with section 23 of the Act. A contribution account is maintained for each contributor. If a member ceases to contribute they will be automatically covered by the Southern State Superannuation Scheme (Triple S), to meet the minimum requirements of the Commonwealth legislation. At this point the member will be recognised as a Triple S member and their Scheme account will be maintained to reflect the contribution points previously accrued.

Since October 1989, the Act has required that contributions be paid to the Treasurer, who in turn deposits those contributions into the South Australian Superannuation Fund (the Fund), which is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA).

The Act requires the Fund to be treated as being made up of two divisions, being the Old Scheme Division and the New Scheme Division. Each division consists of the contributions and the accretions arising from the investment of those contributions in respect of relevant old or new scheme contributors. Consistent with the accounts of the Fund, the accounts of the Scheme are also maintained in respect of each division.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

# b) South Australian Superannuation Board

The Act charges the South Australian Superannuation Board (the Board), a body corporate, with responsibility for all aspects of the administration of the Act except for the management and investment of the Fund. The Act also provides the Board with the necessary powers to administer the Scheme. The Board has contracted the Department of Treasury and Finance (DTF) to provide administrative services in accordance with the Act. A portion of the administrative costs are recovered from the Scheme. The Board's financial report provides the total administration cost paid to DTF.

Under the Act, the Board is required to determine rates of return to be credited to each division of the Fund, with those rates being credited to each contribution account at the end of the financial year. In determining the rate to be applied, the Act requires that the Board have regard to the net rate of return achieved by Funds SA for each division of the Fund.

# c) Superannuation Funds Management Corporation of South Australia

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995* (the Funds SA Act). Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA.

For further information on the investment of the Scheme's funds, reference should be made to the Fund and the South Australian Superannuation Scheme Contribution Account (the Account) in the annual report of Funds SA. The investment assets, liabilities, income and expense contained in this financial report are related to the investment activities of Funds SA.

# d) Funding Arrangements

Under section 20B of the Act, any payment made to a contributor must be made out of the Consolidated Account or a Special Deposit Account held with DTF established for that purpose. The Treasurer may subsequently reimburse the Consolidated Account or the Special Deposit Account from the Fund the proportion of any such payment charged against the contributor's contribution account. The prescribed proportion of that payment or benefit payments to be charged to the old scheme contributor's accounts is determined by the Board in accordance with section 47C and 47D of the Act. During the year ended 30 June 2022 all payments were made from the Special Deposit Account. Employer contributions for the year have been made at the rate determined by the Scheme actuary.

The Treasurer may also seek reimbursement of the employer portion of any such payments from certain employer bodies under agreements made between the Treasurer and/or the Board and those employer bodies. The employer portion of benefits is met from the Account established by the Treasurer to record employer superannuation contributions. The employer portion of payments may be in relation to State Government Departments, Statutory Authorities and former State Government employees now employed by the Commonwealth Government. Employer contributions for these agencies were 26 per cent (2021: 26 per cent) for old scheme contributors and 14.75 per cent (2021: 14.75 per cent) for new scheme contributors.

Funding for the employer portion of payments met from the Special Deposit Account is from monies deposited under arrangements with respective employers. Monies deposited in the Account are invested and managed by Funds SA but do not form part of the Fund. The Treasurer seeks reimbursement from the Account balances as benefits are paid. The arrangements with employers are:

#### (i) State government departments

State government departments pay fortnightly employer contributions to the Treasurer for their emerging superannuation liabilities that are deposited by the Treasurer into the Account. Details on employer contributions from State Government Departments are detailed in Note 15.

Since 30 June 1994 the Government has commenced a process of funding its accrued past service superannuation liabilities. The amounts the Government transferred into the Account are at Note 14. Current Government policy is that it will continue to pay contributions to the Account to meet the accrued past service liability so the liability will be fully funded by 30 June 2034.

# (ii) Statutory authorities

Where the employer proportion of a payment relates to Statutory Authorities, three different funding arrangements exist. These arrangements are made by the Board, which has entered into agreements with individual authorities pursuant to section 5 of the Act. The terms agreed in any such arrangements must be approved by the Treasurer. The three arrangements are:

State government liability for statutory authorities

These authorities have made arrangements with the Board to fund their emerging superannuation liabilities by making regular payments to the Treasurer based on an actuarial assessment. These monies are deposited in the Account. In addition, the Government has commenced a process of funding the past service superannuation liability for these authorities as outlined in Note 1(d)(i).

#### Employer contribution accounts

Certain public sector employers have made arrangements with the Board to fund their superannuation liabilities by making regular payments to the Treasurer based on an actuarial assessment performed every three years. The Treasurer deposits these monies in the Account into what are referred to as the Employer Contribution Accounts. The Treasurer seeks reimbursement from the Employer Contribution Account balances as benefits are paid.

Details on the contributions for past service liabilities are provided at Note 14.

Public authorities accounts (universities)

Some public authorities make provisions in their own accounts for their future superannuation liabilities and no balances are maintained in the Account. The Treasurer seeks reimbursement from the Account in the first instance and simultaneously seeks reimbursement directly from these authorities as benefits are paid.

The liability for future benefits is funded to the extent of benefits to be reimbursed from the Fund, the Account, and the Public Authorities Accounts referred to in Note 1(d)(ii) above. The liability for future benefits is only partially funded in respect of benefits to be reimbursed from State Government Departments and the State Government liability for Statutory Authorities. The net assets figure shown in this report represents the amount available to meet these future benefits.

# 2) Significant accounting policies

#### a) Basis of accounting

This financial report is a general purpose financial report. The financial statements have been prepared in accordance with relevant Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the *Public Finance and Audit Act 1987* (PFAA), except as provided below.

This financial report has been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

This financial report is presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The Scheme is a not-for-profit entity for the purpose of preparing financial statements.

#### b) Impact of standards and statements not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2022 reporting period. The assessment of the impact of these new standards and interpretations is set out below.

The Board has assessed the impact of new and changed Australian Accounting Standards Board Standards and Interpretations on behalf of the Scheme. There are no Accounting Policy Statements that are not yet effective. The material impacts on the Scheme are outlined below.

AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard replaces the reduced disclosure requirements previously included in all Australian Accounting Standards with simplified disclosure requirements which will apply to Tier 2 entities.

AASB 1053 Application of Tiers of Australian Accounting Standards will still apply in conjunction with AASB 1060. Application of AASB 1060 will significantly amend the content of Tier 2 financial reports.

The Scheme is not a Tier 2 financial reporting entity. The Board has assessed the impact of the amendments of AASB 1060, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-2 Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard removes the ability for certain for-profit private sector entities to self-assess their financial reporting requirements and prepare special purpose financial statements (SPFS) when they are required to prepare financial statements that comply with Australian Accounting Standards (AAS).

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2021-1 Transition to Tier 2: Simplified Disclosures for Not-for-Profit Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The Standard amends new elements of AASB 1053 and amends AASB 1060 for first-time application to provide not-for-profit entities with optional relief from presenting comparative information in the notes to the financial statements where the entity did not disclose the comparable information in its most recent previous general purpose financial statements. This relief is only applicable where AASB 1060 is early adopted.

Amendments to AASB 1053 highlight that the relief set out in Appendix E of AASB 1053 is available only to for-profit private sector entities.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-7 Amendments to Australian Accounting Standards - Covid-19 Related Rent Concessions: Tier 2 Disclosures

This standard applies to reporting periods beginning on or after 1 July 2021. AASB 16 (June 2020) provides a practical expedient to elect not to assess whether rent concessions are lease modifications and allows entities to apply a change in lease payments resulting from rent concessions as per the requirements of AASB 16. This practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and where certain conditions are met. Additional disclosures were required where the practical expedient was applied. AASB 2020-7 amends AASB 16 to include relief for Tier 2 entities from the requirement of the additional disclosures required by paragraph 60A and introduces these disclosures in AASB 1060.

The Scheme does not hold any leases therefore AASB 2020-7 does not apply. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-9 Amendments to Australian Accounting Standards – Tier 2 Disclosures: Interest Rate Benchmark Reform (Phase 2) and Other Amendments

This standard applies to reporting periods beginning on or after 1 July 2021. This Standard amends AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities to provide relief in the first reporting period in which an entity applies AASB 2020-8 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2. An entity is not required to disclose the information that would otherwise be required by paragraph 106(b) of AASB 1060 in respect of the accounting policy changes made in applying AASB 2020-8.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme and has determined there will be no impact on the Scheme's financial statements.

#### c) Financial assets and liabilities

# (a) Classification

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme, if any, do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

Financial instruments designated at fair value through profit or loss upon initial recognition

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value

# (b) Recognition

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Scheme commits to purchase or sell the asset.

# (c) Initial recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the income statement, unless specified otherwise.

# (d) Subsequent measurement

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

#### (e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement Note 4.

# (f) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash and deposits in the Scheme's Special Deposit Account held with DTF, which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits as defined above.

# (g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Scheme prior to the end

of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

# (h) Benefits payable

Benefits payable are valued at fair value and relate to members who have ceased employment and provided the Scheme with appropriate notification on or prior to 30 June 2022 but paid after 30 June 2022. These also include income protection payments payable on or prior to 30 June 2022 but paid after 30 June 2022.

# (i) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

# (j) Taxation

The Scheme is a constitutionally protected superannuation fund in terms of Section 295-15 of the *Income Tax Assessment Act 1997*, Regulation 995-1.04 (Schedule 4) and is exempt from income tax. Therefore, no income tax has been brought to account in this financial report.

# (k) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

# (l) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, which is the currency of the primary economic environment the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

#### (m) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

# (i) <u>Inflation Linked Securities Tax-Exempt</u>

The Inflation Linked Securities Tax-Exempt portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

# (ii) Property Tax-Exempt

The Property Tax-Exempt portfolio comprises two sub sectors:

# Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

## Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

# (iii) Australian Equities Tax-Exempt

The Australian Equities Tax-Exempt portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

# (iv) International Equities Tax-Exempt

The International Equities Tax-Exempt portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

#### (v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and is managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

# (vi) <u>Diversified Strategies Growth Tax-Exempt</u>

The Diversified Strategies Growth Tax-Exempt asset class incorporates two sub sectors:

# Private Markets Tax-Exempt

The Private Markets Tax-Exempt portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# Core Infrastructure Tax-Exempt

The Core Infrastructure Tax-Exempt portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# (vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates three sub sectors:

#### Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# (viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

# (ix) Socially Responsible

The Socially Responsible portfolio actively incorporates the consideration of environmental, social and governance factors in their investment decisions and avoids investing in companies operating in areas of high negative social impact. The portfolio comprises investments in equities listed on Australian and international share markets and is invested and managed by external managers along with a number of international and domestic pooled fund investments.

Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

# (n) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Fund pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2022, Funds SA managed seven (2021: eight) distinct investment options for the Scheme which were available to investors, each differing by strategic asset allocation:

- High Growth
- Balanced
- Moderate
- Stable (previously known as Conservative)
- Capital Defensive
- Cash
- Socially Responsible

During the financial year all of the above investment options were available to members for assets invested in the South Australian Superannuation Fund Account (New Scheme Division). The assets of the South Australian Superannuation Fund Account (Old Scheme Division) and the South Australian Superannuation Scheme Contribution Account are invested in the Defined Benefit (DB) High Growth Strategy.

Reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to each of the investment options discussed in the preceding paragraphs.

# (o) Member liabilities

Member liabilities are measured at the amount of accrued benefits.

Defined benefit member liabilities are measured as the amount of a portfolio of investments that would be needed, as at the reporting date, to yield future net cash inflows that would be sufficient to meet accrued benefits as at that date when they are expected to fall due.

Defined contribution member liabilities are measured as the amount of member account balances as at the reporting date.

# (p) Significant accounting judgements, estimates and assumptions

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

# Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

# Valuation of defined benefits member liabilities

The amount of member liabilities in relation to defined benefits has been determined using actuarial valuation techniques and assumptions. An actuarial valuation involves making various assumptions about the future. Actual developments in the future may differ from these assumptions. The assumptions include member turnover, future investment returns, pension indexation rates, mortality rates and future salary increases. Due to the complexities involved in the valuation and its long term nature, defined benefit member liabilities are highly sensitive to changes in these assumptions. Assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, the actuary considers an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.

The mortality assumption is based on publicly available mortality tables. Future salary increases are based on the Wage Price Index produced by the Australian Bureau of Statistics and in consultation with the employer-sponsors.

# (q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA, consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in Note 1. above, the investments of the Scheme, are managed by Funds SA. Funds SA, in turn is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and

Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

# 3) Defined contribution member liabilities

The employee funded, defined contribution component for new scheme contributors has an accrued liability that is the balance of the employees' contribution accounts as at the end of the financial year. These accounts are valued using unit prices that are determined by the underlying investment movements.

Defined contribution members bear the investment risk relating to the underlying assets and unit prices used to measure the member liabilities. Unit prices are updated twice weekly.

Refer to Note 17 for the Scheme's management of the investment risks.

#### 4) Defined benefit member liabilities

The defined benefits members' liabilities and the employer funded defined benefit component of the liabilities in respect of new scheme contributors is measured annually by the Fund's actuary, currently Mr Geoffrey Keen, Fellow of the Institute of Actuaries of Australia from Brett & Watson Pty Ltd.

The actuarial valuation of member liabilities reflects the actuarial assessment of the benefits accrued up to the reporting date and payable to members on retirement, resignation, death and disability. For the old scheme contributors and the employer funded defined benefit component in respect of new scheme contributors, the accrued liabilities are the present values of expected future benefit payments arising from membership of the Scheme up to 30 June 2022.

The expected future benefit payments have been determined using the 2019 triennial review assumptions relating to mortality, disability, withdrawal, preservation and retirement. The actuarial valuation of member liabilities of the South Australian Superannuation Scheme is undertaken annually, as at the end of each financial year. The key assumptions used to determine the values of accrued benefits were:

- The future rate of investment earnings (net of investment taxes and fees): 6.5 per cent per annum (2021: 6.5 per cent),
- The future rate of salary growth: 2.5 per cent per annum (2021: 2.5 per cent), and
- Long term inflation (CPI): 2.0 per cent per annum (2021: 2.0 per cent).

The defined benefit members' liabilities have changed in the current financial year as a result of salary increases and additional year service accrual. Note, the defined contribution values are included in the tables below for comparison.

	2022			2021					
	Defined	Defined	Total	Defined	Defined	Total			
	Benefit	Contribution		Benefit	Contribution				
	\$000	\$000	\$000	\$000	\$000	\$000			
Member liabilities	8 306 884	495 039	8 801 923	8 165 734	600 169	8 765 903			
		2022			2021				
2022		TD . 1	2021						
	Old	New	Total	Old	New	Total			
	Scheme	Scheme		Scheme	Scheme				
	\$000	\$000	\$000	\$000	\$000	\$000			
SA Superannuation Fund	1 151 936	495 039	1 646 975	1 110 437	600 169	1 710 606			
SA Superannuation Scheme contribution accounts:									
Employer contribution accounts	1 118 915	250 120	1 369 035	1 081 945	286 206	1 368 151			
SA Government employer account	5 061 000	467 713	5 528 713	4 918 642	510 449	5 429 091			
Public authorities	253 086	4 114	257 200	253 927	4 128	258 055			
	7 584 937	1 216 986	8 801 923	7 364 951	1 400 952	8 765 903			

The Board has a number of steps in place to manage the risks associated with the defined benefits. The Board has appointed external consulting actuaries to advise on the risks, including establishing suitable funding objectives.

The Board also uses sensitivity analysis to monitor the potential impact of changes to key variables about which assumptions need to be made. The Scheme has identified four assumptions (being the discount rate, the rate of salary adjustment, pension indexation rates and mortality rates) for which changes are reasonably possible that would have a material impact on the amount of the defined benefit member liabilities.

The assumed discount rate has been determined by reference to the investment returns expected on an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.

The other variable about which assumptions have been made in measuring defined benefit member liabilities and for which changes are not considered reasonably possible, or for which reasonably possible changes would not be expected to have a material effect, are resignations. The following table outlines the defined benefit liability sensitivity estimates provided by the scheme actuary on the discount rate, salary increase rate, pension indexation rate and mortality rate.

	Member liability result <sup>(a)</sup>	Change in member benefit	Change in member benefit
	\$000	liability \$000	liability %
	φοσο	ΨΟΟΟ	70
Scenario			
Base Case	8 307	-	-
Discount rate plus 0.5%	7 997	(310)	(3.7)
Discount rate less 0.5%	8 639	332	4.0
Salary increase rate plus 0.5%	8 326	19	0.2
Salary increase rate less 0.5%	8 289	(18)	(0.2)
Pension increase rate plus 0.5%	8 565	258	3.1
Pension increase rate less 0.5%	8 064	(243)	(2.9)
Mortality rate plus 10%	8 130	(177)	(2.1)
Mortality rate less 10%	8 502	195	2.3

# a) Excludes Lump Sum Scheme accumulation liabilities

The SA Government is responsible for funding the SA Government Employer Account and part of the Employer Contribution Accounts. The remaining liability includes the members fund, commercial entities and the Commonwealth Government share of the universities.

#### **Vested benefits**

Vested benefits are only available by the Old Scheme/New Scheme disaggregation. Vested benefits are benefits that are not conditional upon continued membership of the Scheme, or any factor other than resignation from the Scheme. Vested Benefits include benefits which members are entitled to receive had they terminated their membership as at the reporting date.

Temporary disability	90	89
	4 245	5 017

# 7) Fair value of financial instruments

# Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

# Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

		2022 \$000	2021 \$000
Financial assets at fair value through profit or loss –		рООО	\$000
Level 2			
Level 1 and level 3 are not relevant to the Scheme

10) Investment expenses			
	,	2022	2021
		\$000	\$000
Investment expenses	19	088	18 302

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

# 11) Administration expenses

	2022	2021
	\$000	\$000
Administration expenses (i)	7 911	7 815
Other expenses (ii)	204	109
_	8 115	7 924

<sup>(</sup>i) Administration expenses comprises the costs incurred by the DTF in administering the Scheme, which are met in the first instance from the DTF Operating Account. The Board recovers a share of the administration cost from the Scheme.

# 12) Auditors' remuneration

80	79
\$000	\$000
	\$000

2022

2021

Audit fees paid (or payable), \$79 900 GST exclusive (2021: \$78 600), relate to the Auditor-General's Department work performed under the PFAA. No other services were provided by the Auditor-General's Department.

# 13) Higher education superannuation costs

	2022 \$000	2021 \$000
<b>Higher education superannuation costs</b>	9 136	8 342

These amounts are paid to the Commonwealth Government that related to the South Australian share of the 2022 higher education superannuation costs under the Commonwealth – State agreement. This agreement provides that the employer component of the superannuation benefits payable to former employees of South Australian universities who were members of one of the main State Schemes, be shared.

# 14) Contributions for past service liability

	2022	2021
	\$000	\$000
SA Government	368 988	415 870
SA Water	2 030	0

Statutory authorities – state government entities	6 798	7 879
Statutory authorities – non-state government entities	293	1 093
	23 114	27 264

<sup>(</sup>ii) Other expenses include Auditor's remuneration. Refer Note 12.

# 16) Reconciliation of cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash and deposits in the Scheme's Special Deposit Account held with DTF. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	2022 \$000	2021 \$000
Cash and cash equivalents	11 366	9 472
<b>Reconciliation of net cash from operating activities</b> Net operating result	(599 736)	878 451
Adjustments for:		
Change in investments measured at fair value	83 180	(1 056 704)
Investment expenses	19 088	18 302
(Increase) in receivables	82	(79)
Increase in payables	$(2\ 239)$	2 239
Allocation to members' accounts	480 217	143 733
Net cash flows from operating activities	(19 408)	(14 058)

# 17) Financial risk management objectives and policies

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities.

The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

#### (a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Scheme's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

# i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Scheme's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are fully hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are partly hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

# ii) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Fund's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

# iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer, or factors affecting all instruments traded in the market.

As the Scheme's financial instruments are valued at fair value with changes in fair value recognised in the Income Statement, all changes in market conditions will directly affect investment revenue.

The Fund's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

# iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for DB High Growth Strategy.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement

<sup>(</sup>i) Stable was previously known as the Conservative option.

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

# (b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

# (c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions,
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities,
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met,
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Scheme itself, the liquidity position is monitored on a daily basis. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

The following tables summarise the expected maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 Months	Total Contractual Cash Flows	Carrying Amount Liabilities
2022	\$000	\$000%	\$000
Benefits payable	7 838	7 838	7 838
Payables <sup>(i)</sup>	36	36	36

Total	8 916 497	8 916 497	8 916 497
Total	0 910 497	ð 910 <del>4</del> 97	8 910 497
2021			
Benefits payable	10 561	10 561	10 561
Payables <sup>(i)</sup>	0	0	0
Vested benefits <sup>(ii)</sup>	8 902 659	8 902 659	8 902 659
Total	8 913 220	8 913 220	8 913 220

<sup>(</sup>i) Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges; Auditor-General's Department audit fees).

#### (a) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

# 18) Net assets available for member benefits

AASB 1056 recommends segregation to distinguish between different member accounts based on risk profile. The defined benefit/defined contribution split is a natural disaggregation arising from the different market risk exposures of these member categories. An alternative disaggregation is the segregation into Old Scheme (Pension Scheme) and New Scheme (Lump Sum). The following net assets table shows the splits across these latter accounts and demonstrates net assets available to pay benefits consisting of the combined balances of the Fund and the Account. Movements in the balances of these accounts are detailed below:

<sup>(</sup>ii) Vested benefits have been included in the "Less than 3 months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

# 19) Segment information

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment manager Funds SA, has investment exposures in different countries and across different industries. Revenue derived from interest and the realised and unrealised changes from the different segments is reflected in the value of investments.

# 20) Related parties

# a) Key management personnel

The key management personnel of the Scheme includes the Treasurer, Board members and the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Scheme.

# b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance or the Board, therefore their compensation is disclosed in the respective financial reports.

# c) Transactions with key management personnel and other related parties

There were no transactions requiring disclosure for key management personnel or related parties.

# d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

# 21) Events after the reporting period

There were no significant events after the reporting period.

#### Certification of the financial statement

# We certify that the:

- financial statements of the South Australian Superannuation Scheme:
  - are in accordance with the accounts and records of the Scheme,
  - comply with relevant Treasurer's instructions,
  - comply with relevant accounting standards, and
  - present a true and fair view of the financial position of the Scheme at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Scheme for the financial year over its financial reporting and its preparation of the financial statements have been effective.

To the Board Member
South Australian Superannuation Board
Southern State Superannuation Scheme

#### **Opinion**

I have audited the financial report of Southern State Superannuation Scheme for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Southern State Superannuation Scheme as at 30 June 2022, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

# The financial report comprises:

- a Statement of Financial Position as at 30 June 2022
- an Income Statement for the year ended 30 June 2022
- a Statement of Changes in Member Benefits for the year ended 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Board Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office and the Director, Finance, State Superannuation Office.

### **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of Southern State Superannuation Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

# Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 15(3) of the *Southern State Superannuation Act 2009* I have audited the financial report of Southern State Superannuation Scheme for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

• identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the Southern State Superannuation
  Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue

The Statement of Cash Flows should be read in conjunction with the accompanying notes.

#### **Notes to the Financial Statements**

# 1) Objectives and funding

### a) Southern State Superannuation Scheme

The Southern State Superannuation Scheme (the Scheme/the Triple S Scheme) is both a contributory and non contributory superannuation scheme established pursuant to the *Southern State Superannuation Act 2009* (the Act). The Scheme commenced on 1 July 1995 pursuant to the *Southern State Superannuation Act 1994* and is continued under the Act and the *Southern State Superannuation Regulations 2009*.

Members can elect to make contributions to the Scheme based on a percentage of their salary commencing from 1 per cent, under Regulation 17. A member of the police force, an operations employee of the South Australian Ambulance Service who commenced employment after 1 July 2008 or a former standard contributory member of the SA Ambulance Service Superannuation Scheme who elected to transfer to the Triple S Scheme must contribute at a rate of at least 4.5 per cent of salary. A separate contribution account is maintained for each member. Member and employer contributions and any rollover amounts and co contribution amounts are deposited by the Treasurer into the Southern State Superannuation Fund (the Fund) that is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA).

An employer is required to pay contributions to the Treasurer under section 21 of the Act. The employer contributes 10.0 per cent of salary from 1 July 2021 and 10.5 per cent of salary from 1 July 2022 (2021: 9.50 per cent).

Benefits, represented by the balances of all member accounts, are available for employees who retire, resign and meet a condition of release, are retrenched, elect Transition to Retirement or Early Access to Super while still an employee of the SA Public Sector or die, or become terminally ill, or terminate their employment because of invalidity. The balance of individual member entitlements is provided in annual statements provided to each member.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

#### b) South Australian Superannuation Board

The purpose of this financial report is to discharge the responsibilities of the South Australian Superannuation Board (the Board) under section 15 of the Act to maintain accounts of receipts and payments.

The Act charges the Board with responsibility for all aspects of the administration of the Act except for the management and investment of the Fund. The Act also provides the Board with the necessary powers to administer the Scheme.

The Board is required under section 13 of the Act to adjust a member's contribution account, rollover account and co contribution account to reflect movements in the value of units allocated to each account.

Pursuant to section 14 of the Act, where a member or members have nominated a class of investments, or a combination of classes of investments, the Board shall adjust a member's contribution account, rollover account and co contribution account to reflect the movement in the value of units held in the class of investments nominated by the member.

# c) Superannuation Funds Management Corporation of South Australia

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995*. Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA.

For further information on the investment of the Scheme's funds, reference should be made to the annual report of Funds SA. The investment assets, liabilities, income and expenses contained in this financial report are related to the investment activities of Funds SA.

# d) Funding Arrangements

The Act requires that member contributions, employer contributions, rollovers from other schemes and co contributions paid by the Commonwealth be paid to the Treasurer, who, in turn, deposits these amounts into the Fund, the Consolidated Account (which is appropriated to the necessary extent) or to a Special Deposit Account held with the Department of Treasury and Finance (DTF) established for that purpose. During the current reporting period, contributions were made to the Special Deposit Account. All employer contributions are received from South Australian Government Entities.

Under section 10 of the Act, any payment to a member must be made out of the Consolidated Account (which is appropriated to the necessary extent) or from the Special Deposit Account established for that purpose. During the current reporting period payments were made from the Special Deposit Account.

# 2) Significant accounting policies

# a) Basis of accounting

This financial report is a general purpose financial report. The financial statements have been prepared in accordance with relevant Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the *Public Finance and Audit Act 1987* (PFAA), except as provided below.

This financial report has been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

This financial report is presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The scheme is a not-for-profit entity for the purpose of preparing financial statements.

# b) Impact of standards and statements not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2022 reporting period. The assessment of the impact of these new standards and interpretations is set out below.

The Board has assessed the impact of new and changed Australian Accounting Standards Board Standards and Interpretations on behalf of the Scheme. There are no Accounting Policy Statements that are not yet effective. The material impacts on the Scheme are outlined below.

AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard replaces the reduced disclosure requirements previously included in all Australian Accounting Standards with simplified disclosure requirements which will apply to Tier 2 entities.

AASB 1053 Application of Tiers of Australian Accounting Standards will still apply in conjunction with AASB 1060. Application of AASB 1060 will significantly amend the content of Tier 2 financial reports.

The Scheme is not a Tier 2 financial reporting entity. The Board has assessed the impact of the amendments of AASB 1060, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-2 Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard removes the ability for certain for-profit private sector entities to self-assess their financial reporting requirements and prepare special purpose financial statements (SPFS) when they are required to prepare financial statements that comply with Australian Accounting Standards (AAS).

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2021-1 Transition to Tier 2: Simplified Disclosures for Not-for-Profit Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The Standard amends new elements of AASB 1053 and amends AASB 1060 for first-time application to provide not-for-profit entities with optional relief from presenting comparative information in the notes to the financial statements where the entity did not disclose the comparable information in its most recent previous general purpose financial statements. This relief is only applicable where AASB 1060 is early adopted.

Amendments to AASB 1053 highlight that the relief set out in Appendix E of AASB 1053 is available only to for-profit private sector entities.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-7 Amendments to Australian Accounting Standards - Covid-19 Related Rent Concessions: Tier 2 Disclosures

This standard applies to reporting periods beginning on or after 1 July 2021. AASB 16 (June 2020) provides a practical expedient to elect not to assess whether rent concessions are lease modifications and allows entities to apply a change in lease payments resulting from rent concessions as per the requirements of AASB 16. This practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and where certain conditions are met. Additional disclosures were required where the practical expedient was applied. AASB 2020-7 amends AASB 16 to include relief for Tier 2 entities from the requirement of the additional disclosures required by paragraph 60A and introduces these disclosures in AASB 1060.

The Scheme does not hold any leases therefore AASB 2020-7 does not apply. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-9 Amendments to Australian Accounting Standards – Tier 2 Disclosures: Interest Rate Benchmark Reform (Phase 2) and Other Amendments

This standard applies to reporting periods beginning on or after 1 July 2021. This Standard amends AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities to provide relief in the first reporting period in which an entity applies AASB 2020-8 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2. An entity is not required to disclose the information that would otherwise be required by paragraph 106(b) of AASB 1060 in respect of the accounting policy changes made in applying AASB 2020-8.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

#### c) Financial assets and liabilities

#### (a) Classification

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading:

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

Financial instruments designated at fair value through profit or loss upon initial recognition:

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

#### (b) Recognition

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Scheme commits to purchase or sell the asset.

# (c) Initial recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the income statement, unless specified otherwise.

# (d) Subsequent measurement

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

#### (e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement Note 4.

# (f) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash and deposits in the Scheme's Special Deposit Account held with DTF, which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits as defined above.

# (g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Scheme prior to the end of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

# (h) Benefits payable

Benefits payable are valued at fair value and relate to members who have ceased employment and provided the Scheme with appropriate notification on or prior to 30 June 2022 but paid after 30 June 2022. These also include income protection payments payable on or prior to 30 June 2022 but paid after 30 June 2022.

#### (i) Insurance liabilities

The Scheme provides death and disability benefits to its defined contribution members. Premiums are deducted from insured members' accounts and are paid into a dedicated insurance reserve in order to meet claims as they arise. The Scheme ultimately self-insures this risk as the Board believes it is appropriate given the Scheme's present membership and reserve levels. The table below outlines the net results of the Scheme's insurance activities during the year:

#### **Insurance activities**

	2022 \$000	2021 \$000
Insurance contract revenue 52	2 787	49 214
Insurance contract claims expenses (45)	080)	$(42\ 968)$
Decrease/(Increase) in insurance liabilities (1	034)	1 354
Net result from insurance activities	6 673	7 600

Significant estimates made in measuring insurance contract asset and liabilities

The Scheme uses the services of an actuary to determine its insurance contract assets and liabilities. An actuarial valuation involves making various assumptions about the future. Actual events in the future may differ from these assumptions. The most recent actuarial valuation was performed for the triennium ending 30 June 2019. A shorthand approach has been adopted to determine the value of insurance liabilities between actuarial valuation dates. It is expected that the liability amount determined using the shorthand method will not be materially different had the liabilities been determined in full.

The key assumptions used in measuring the insurance contract liabilities are:

- mortality and disability rates reflecting the Scheme's own claim experience,
- the number and amount of insurance claims yet to be reported to the Scheme, relating to the period prior to the reporting year end, and
- the level of additional payments expected for income protection claims in the course of payment.

The key factors or uncertainties that impact the key assumptions above are:

- if mortality and/or disability rates increase, it will result in an increase in insurance liabilities as a result of higher claims and will lead to a decline in the net assets of the Scheme.
- higher than expected claims reported to the Scheme will result in an increase in insurance liabilities and will lead to a decline in the net assets of the Scheme, and
- a better than expected claims experience will result in lower liabilities and an increase in net assets of the Scheme.

The impact of uncertainties around the key assumptions is largely met from the insurance reserves in the Scheme. The adequacy of the insurance reserves are considered as part of the actuarial valuation.

# (j) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

# (k) Taxation

The Scheme is a constitutionally protected superannuation fund in terms of Section 295-15 of the *Income Tax Assessment Act 1997*, Regulation 995-1.04 (Schedule 4) and is exempt from income tax. Therefore, no income tax has been brought to account in this financial report.

# (l) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

# (m) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, which is the currency of the primary economic environment the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

#### (n) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

# (i) <u>Inflation Linked Securities Tax-Exempt</u>

The Inflation Linked Securities Tax-Exempt portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

# (ii) <u>Property Tax-Exempt</u>

The Property Tax-Exempt portfolio comprises two sub sectors:

#### Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

# Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

# (iii) Australian Equities Tax-Exempt

The Australian Equities Tax-Exempt portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

# (iv) <u>International Equities Tax-Exempt</u>

The International Equities Tax-Exempt portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled

international vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

# (v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and is managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

# (vi) <u>Diversified Strategies Growth Tax-Exempt</u>

The Diversified Strategies Growth Tax-Exempt asset class incorporates two sub sectors:

# Private Markets Tax-Exempt

The Private Markets Tax-Exempt portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# Core Infrastructure Tax-Exempt

The Core Infrastructure Tax-Exempt portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# (vii) <u>Diversified Strategies Income</u>

The Diversified Strategies Income asset class incorporates three sub sectors:

# Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# (viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

# (ix) Socially Responsible

The Socially Responsible portfolio actively incorporates the consideration of environmental, social and governance factors in their investment decisions and avoids investing in companies operating in areas of high negative social impact. The portfolio comprises investments in equities listed on Australian and international share markets and is invested and managed by external managers along with a number of international and domestic pooled fund investments.

Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

# (o) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Fund pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds.

For the year ending 30 June 2022, Funds SA managed seven (2021: eight) distinct investment options for the Scheme available to investors, each differing by strategic asset allocation:

- · High Growth
- Balanced
- Moderate
- Stable (previously known as Conservative)
- Capital Defensive
- Cash
- Socially Responsible

# (p) Significant accounting judgements, estimates and assumptions

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

# Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

# (q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA, consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in Note 1. above, the investments of the scheme, are managed by Funds SA. Funds SA, in turn is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

# 3) Member benefit liabilities

Triple S members are defined contribution members and bear the investment risk relating to the underlying assets and unit prices used to measure the member liabilities. Member account balances are determined by unit prices that are determined based on the underlying investment movements. Unit prices are updated daily. Refer to Note 18 for the Scheme's management of the investment risks.

Member benefits  As compared to net assets available for member benefits	21 764 387 21 973 987	23 100 589 23 411 308

#### 4) Fair value of financial instruments

Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

# Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

		2022	2021

Administration expenses	4 740	7 343
•	4 824	7 437

#### 9) Insurance Reserve

The Scheme self-insures and provides an insurance benefit based on units of cover, subject to certain limitations, in the event of death or permanent invalidity before age 70. An Income Protection Insurance benefit, subject to eligibility criteria, is also available in the event of a member becoming temporarily disabled before age 65.

Most members of the Scheme are provided with three Standard Death and Total and Permanent Disablement (TPD) units of cover as a default costing \$2.25 per week and can reduce or cancel this at any time. Police Officers and operations employees of the SA Ambulance Service, who commenced employment after 1 July 2008 or are former standard contributory members of the SA Ambulance Service Superannuation Scheme who elected to transfer to the Triple S Scheme before age 60, are required to have at least 6 units of Standard Insurance cover and are only able to reduce below this level or cancel on reaching age 65. The value of a unit of Standard Insurance for members up to age 34 years is \$75 000. The value of a unit declines from age 35. Additional units can be purchased (subject to medical evidence) to provide permanent employees with cover up to \$1.5 million and casual employees up to \$750 000. Members can switch their cover to Fixed Benefit Insurance and purchase additional units (subject to medical evidence). Each Fixed Benefit Insurance unit has a value of \$10 000, with premium increases from age 35 to age 70 when cover ceases. The previously offered Fixed Insurance closed to new applications in November 2014.

As required by Section 17 of the Act, a report is obtained from an actuary appointed by the Treasurer on the costs and liabilities of the insurance arrangements of the Scheme (refer Note 2(i)).

To be eligible for the Income Protection Insurance benefit, a member must be an active member, working full-time or part-time and receiving an employer contribution. Casual employees not automatically provided with Income Protection Insurance but can apply for cover subject to medical evidence. Income Protection payments can continue for up to 24 months for members employed full or part time. Casual employees can be paid for up to 12 months.

	2022	2021
	\$000	\$000
<b>Opening Balance of Insurance Reserve</b>	142 943	161 746

Transfer (from) Reserve (iii)	(7 972)	21 162
Closing balance of Reserve	16 238	25 196

- (i) The Administration Fee Reserve is notionally invested in the Balanced option. The rate of return on earnings in 2022 was -6.39 per cent (2021: 21.63 per cent).
- (ii) The amount relates to the annual service level agreement paid for administering the Scheme (refer Note 15).
- (iii) The amount relates to the Board approved reversal of the transfers of accumulated investment earnings from the Scheme's Insurance Reserve (\$7.9 million).

# 11) Operational Risk Reserve

The Operational Risk Reserve is to be accumulated to 0.25 per cent of funds under management in line with Prudential Standard SPS114. The reserve is currently 0.10 per cent of funds under management.

	2022	2021
	\$000	\$000
<b>Opening Balance of Operational Risk Reserve</b>	22 439	36 702
Investment Revenue on Operational Risk Reserve (i)	(1 399)	6 942
Payments from Reserve	(170)	(900)
Operating Result	(1 569)	6 042
Transfer (from) Reserve	-	$(20\ 305)$
Closing balance of Reserve	20 870	22 439

<sup>(</sup>i) The Operational Risk Reserve is notionally invested in the Balanced Option. The rate of return on earnings in 2022 was -6.39 per cent (2021: 21.63 per cent).

#### 12) Allocated to members' accounts

The value of funds which have been formally allocated to investor accounts equals the member benefits. The formal allocation of earnings to investors' accounts has been determined for the 2021-22 financial year.

#### 13) Unallocated to members' accounts

Defined contribution schemes carry a proportion of amounts yet to be allocated. This unallocated amount arises because the financial report of the Scheme is prepared on an accrual basis while monies are allocated to members on a cash basis.

The Scheme also values the investments reported in the financial statements at fair value (refer Notes 2(c)(e) and 4), while the unit prices used to determine the member benefit liabilities are based on the underlying investment movements using redemption value (refer Note 3). The redemption value is adjusted for disposal costs. This difference in valuation methods is reflected in the investment allocation amount in the statement of financial position.

# 14) Investment expenses

	2022 \$000	\$000 \$000
Investment expenses	74 768	72 669

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

# 15) Administration expenses

	21 585	19 621
Other expenses (ii)	91	98
Administration expenses (i)	21 494	19 523
	\$000	\$000
	2022	2021

Regulation 16 provides for an administrative charge to be debited each year to members' employer contribution accounts and section 10 of the Act provides that administration costs will be paid from the Fund. The purpose of the administration charge is to provide for existing and future costs of administering the Scheme. The amount of the charge is determined by the Board. For the year ended 30 June 2022, the charge was \$1.35 per week per member for all members, active and non-active. In addition, an asset-based fee of 0.05 per cent of members' account balances is charged monthly and capped at \$325 per annum. However, the charge for a member with an aggregate balance of \$1 000 or less, is the lesser of the charges applicable to members, or the amount of investment earnings credited to the member's account with a minimum of \$10. These charges are included on member annual statements. For the year ended 30 June 2022 the amount charged to members' employer contribution accounts was \$21.5 million (2021: \$21.4 million).

# 16) Auditors' remuneration

Audit fees paid or payable	80	79
	2022 \$000	2021 \$000

Audit fees paid or payable to the Auditor-General's Department relating to work performed under the PFAA were \$80 000, GST exclusive (2021: \$78 700). No other services were provided by the Auditor-General's Department.

# 17) Reconciliation of cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash and deposits in the Scheme's Special Deposit Account held with DTF. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	2022 \$000	2021 \$000
Cash and cash equivalents	37 673	22 037
Reconciliation of net cash from operating activities		
Net operating result	(89 083)	157 512
Adjustments for:		
Change in investments measured at fair value	1 393 952	(4 115 463)
Investment expenses	74 768	72 669
Insurance recognition	(6 673)	(7 600)

(Increase) in receivables	528	(170)
Increase in payables	(2 605)	7 343
Allocation to/(from) members' accounts	(1 392 127)	3 858 110
Net cash flows from operating activities	(30 323)	(18 516)

<sup>(</sup>ii) Other expenses include Auditor's remuneration. Refer Note 16.

# 18) Financial risk management objectives and policies

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities.

The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

# a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Scheme's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

# i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Scheme's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are fully hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are partly hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

# ii) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Fund's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

# iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer, or factors affecting all instruments traded in the market.

As the Scheme's financial instruments are valued at fair value with changes in fair value recognised in the Income Statement, all changes in market conditions will directly affect investment revenue.

The Fund's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon
  of each.

# iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for the Scheme's investment options.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income
2022	%	%	\$000	Statement \$000
<b>Investment Option</b>				
High Growth Tax-Exempt	6.7	10.3	2 787 520	287 115
Balanced Tax-Exempt	6.1	8.9	18 044 732	1 605 981

Stable Tax-Exempt <sup>(i)</sup>	3.9	5.1	469 631	23 951
Capital Defensive Tax Exempt	3.3	3.9	235 010	9 165
Cash Tax-Exempt	0.0	0.5	441 157	2 206
Socially Responsible	5.2	8.8	138 887	12 222
	Expected	Market	Average Funds	Potential impact
	Average	Risk	Under	of market
	Return	KISK	Management	risk (+/-) on
	Return		Management	Income
				Statement
2021	%	%	\$000	\$000
<b>Investment Option</b>				
High Growth Tax-Exempt	7.6	10.9	2 162 943	235 761
Balanced Tax-Exempt	7.0	10.0	16 923 595	1 692 359
Moderate Tax-Exempt	5.6	7.2	509 547	36 687
Stable Tax-Exempt <sup>(i)</sup>	4.5	5.1	454 469	23 178
Capital Defensive Tax-Exempt	3.3	3.6	263 323	9 480
Cash Tax-Exempt	0.3	1.0	484 793	4 848
Socially Responsible	6.0	10.3	99 748	10 274

<sup>(</sup>i) Stable was previously known as the Conservative option.

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

# b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

# c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions,
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities,
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met,
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Scheme itself, the liquidity position is monitored on a daily basis. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

The following tables summarise the expected maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

2022	Less than 3 Months \$000	Total Contractual Cash Flows \$000	Carrying Amount Liabilities \$000
Benefits payable	67 994	67 994	67 994
Vested benefits <sup>(i)</sup>	21 764 387	21 764 387	21 764 387
Total	21 832 381	21 832 381	21 832 381
2021	Less than 3 Months \$000	Total Contractual Cash Flows \$000	Carrying Amount Liabilities \$000
Benefits payable Vested benefits <sup>(i)</sup>	42 069 23 100 589	42 069 23 100 589	42 069 23 100 589
Total	23 142 658	23 142 658	23 142 658

<sup>(</sup>i) Vested benefits have been included in the "Less than 3 months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

#### d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

# 19) Segment information

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment managers Funds SA, has investment exposures in different countries and across different industries.

# 20) Related parties

# a) Key management personnel

The key management personnel of the Scheme includes the Treasurer, Board members, and the Chief Executive and six members of the Executive Group, State Superannuation Office, who have responsibility for the strategic direction and management of the Scheme.

# b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance therefore their compensation is disclosed in the respective financial reports.

# c) Transactions with key management personnel and other related parties

There were no transactions with key management personnel or related parties.

# d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

# 21) Events after the reporting period

There were no significant events after the reporting period.

#### Certification of the financial statements

#### We certify that the:

- · financial statements of the Southern State Superannuation Scheme:
  - are in accordance with the accounts and records of the Scheme, and comply with relevant Treasurer's instructions,
  - comply with relevant accounting standards,
  - comply with relevant accounting standards, and
  - present a true and fair view of the financial position of the Scheme at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Scheme for the financial year over its financial reporting and its preparation of the financial statements have been effective.

To the Board Member
South Australian Superannuation Board
Super SA Retirement Investment Fund

#### **Opinion**

I have audited the financial report of Super SA Retirement Investment Fund for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Super SA Retirement Investment Fund as at 30 June 2022, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

# The financial report comprises:

- a Statement of Financial Position as at 30 June 2022
- an Income Statement for the year ended 30 June 2022
- a Statement of Changes in Member Benefits for the year ended 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Board Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office and the Director, Finance, State Superannuation Office.

# **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of Super SA Retirement Investment Fund. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

# Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 15(3) of the *Southern State Superannuation Act 2009* I have audited the financial report of Super SA Retirement Investment Fund for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

• identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Super SA Retirement Investment Fund's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue

#### **Notes to the Financial Statements**

# 1) Objectives and funding

#### a) Super SA Retirement Investment Fund (the Fund)

The Flexible Rollover Product and the Super SA Income Stream Product were introduced from April 2005 under the now repealed *Southern State Superannuation Act 1994* (the Act). The Fund was established under Section 47(B) of the repealed Act. The Fund is now continued under Part 3 Division 4 of the *Southern State Superannuation Regulations* 2009 (the Regulations).

Part 3 Division 4 provides that the South Australian Superannuation Board (the Board) may provide investment services and the provision of other products and services for the benefit of persons who have retired or otherwise ceased to be employed.

Regulation 45 provides that the Board may accept money from public sector superannuation beneficiaries or the spouses of public sector beneficiaries.

The Fund comprises of two different products: the Flexible Rollover Product, and the Income Stream which also comprises two products: Income Stream and Transition to Retirement Income Stream (TRIS). Refer to Note 2(c)(k) for more information.

The Flexible Rollover Product may receive after tax investor contributions and rollovers from investors. The Income Stream may only receive rollovers from investors.

The Fund offers investors the opportunity to reinvest funds, providing them with tax advantages, low fees and choice of investment options.

The Fund is only available to investors who have retired, are reaching retirement age, or have terminated employment with the SA public sector. The Fund allows investors in the Flexible Rollover Product to maintain their current insurance through the Triple S Scheme, and provides access to non-preserved benefit amounts.

Benefits, represented by the balances of investors' accounts, are available to investors. The balance of individual investor entitlements is provided on annual statements forwarded to each investor.

Investor contributions are deposited by the Treasurer into the Fund which is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA).

The Fund is an exempt public sector superannuation entity and operates on a not-for-profit basis.

## b) South Australian Superannuation Board

The purpose of this financial report is to discharge the responsibilities of the Board under section 15 of the Act and Section 45 of the Regulations, to maintain proper accounts of receipts and payments.

The Act charges the Board with responsibility for all aspects of the administration of the Act except for the management and investment of the assets relating to the Flexible Rollover Product and Income Stream.

# c) Superannuation Funds Management Corporation of South Australia

Funds SA is established under the *Superannuation Funds Management Corporation of South Australia Act 1995* (the Funds SA Act). Funds SA is responsible for the investment and management of funds pursuant to strategies formulated by Funds SA. The Fund is not Crown property and therefore operates in a taxed environment.

For further information on investment activities, reference should be made to the annual report of Funds SA. The financial report of Funds SA discloses the investment assets, liabilities, income and expenses relating to the investment activities of Funds SA

# d) Funding Arrangements

Investments by investors in one or more of the products available in the Fund are paid to the Board, and invested by Funds SA. All investments are the personal property of the investor who makes the investment, and, as such, are subject to tax on investment earnings where applicable.

# 2) Significant accounting policies

# a) Basis of accounting

This financial report is a general purpose financial report. The financial statements have been prepared in accordance with relevant Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the *Public Finance and Audit Act 1987* (PFAA), except as provided below.

This financial report has been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

This financial report is presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The Fund is a not-for-profit entity for the purpose of preparing financial statements.

# b) Impact of standards and statements not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2022 reporting period. The assessment of the impact of these new standards and interpretations is set out below.

The Board has assessed the impact of new and changed Australian Accounting Standards Board Standards and Interpretations on behalf of the Fund. There are no Accounting Policy Statements that are not yet effective. The material impacts on the Fund are outlined below.

AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard replaces the reduced disclosure requirements previously included in all Australian Accounting Standards with simplified disclosure requirements which will apply to Tier 2 entities.

AASB 1053 Application of Tiers of Australian Accounting Standards will still apply in conjunction with AASB 1060. Application of AASB 1060 will significantly amend the content of Tier 2 financial reports.

The Fund is not a Tier 2 financial reporting entity. The Board has assessed the impact of the amendments of AASB 1060, and has determined there will be no impact on the Fund's financial statements.

AASB 2020-2 Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard removes the ability for certain for-profit private sector entities to self-assess their financial reporting requirements and prepare special purpose financial statements (SPF) when they are required to prepare financial statements that comply with Australian Accounting Standards (AAS).

The Fund is an exempt public sector superannuation scheme and operates on a not-for-profit basis. The Board has assessed the impact of the new standard on the Fund, and has determined there will be no impact on the Fund's financial statements.

AASB 2021-1 Transition to Tier 2: Simplified Disclosures for Not-for-Profit Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The Standard amends new elements of AASB 1053 and amends AASB 1060 for first-time application to provide not-for-profit entities with optional relief from presenting comparative information in the notes to the financial statements where the entity did not disclose the comparable information in its most recent previous general purpose financial statements. This relief is only applicable where AASB 1060 is early adopted.

Amendments to AASB 1053 highlight that the relief set out in Appendix E of AASB 1053 is available only to for-profit private sector entities.

The Fund operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Fund, and has determined there will be no impact on the Fund's financial statements.

AASB 2020-7 Amendments to Australian Accounting Standards - Covid-19 Related Rent Concessions: Tier 2 Disclosures

This standard applies to reporting periods beginning on or after 1 July 2021. AASB 16 (June 2020) provides a practical expedient to elect not to assess whether rent concessions are lease modifications and allows entities to apply a change in lease payments resulting from rent concessions as per the requirements of AASB 16. This practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and where certain conditions are met. Additional disclosures were required where the practical expedient was applied. AASB 2020-7 amends AASB 16 to include relief for Tier 2 entities from the requirement of the additional disclosures required by paragraph 60A and introduces these disclosures in AASB 1060.

The Scheme does not hold any leases therefore AASB 2020-7 does not apply. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-9 Amendments to Australian Accounting Standards – Tier 2 Disclosures: Interest Rate Benchmark Reform (Phase 2) and Other Amendments

This standard applies to reporting periods beginning on or after 1 July 2021. This Standard amends AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities to provide relief in the first reporting period in which an entity applies AASB 2020-8 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2. An entity is not required to disclose the information that would otherwise be required by paragraph 106(b) of AASB 1060 in respect of the accounting policy changes made in applying AASB 2020-8.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

# c) Financial assets and liabilities

#### a) Classification

The Fund classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Fund, if any, do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Fund.

Financial instruments designated at fair value through profit or loss upon initial recognition

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

# b) Recognition

The Fund recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, i.e. the date that the Fund commits to purchase or sell the asset.

# c) Initial Recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Fund recognises the difference in the income statement, unless specified otherwise.

# d) Subsequent measurement

After initial measurement, the Fund measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in investments measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

#### e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Fund uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement note 5.

# f) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash and deposits in Deposit Accounts held with the Department of Treasury and Finance (DTF), which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and deposits as defined above.

# g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Fund prior to the end of the financial year that are unpaid, and for which the Fund is obliged to make future payments in respect of the purchase of these goods or services.

# h) Benefits payable

Benefits payable are valued at fair value and relate to members who are eligible to receive payment and provided the Fund with appropriate notification on or prior to 30 June 2022 but paid after 30 June 2022.

# i) Insurance liabilities

Insurance liabilities have been recognised and measured using the approach to measuring defined benefit member liabilities as required by AASB 1056. The Fund has adopted the equivalent AASB 1056 approved shortcut method that provides a valuation to meet the accrued insurance liabilities as at that date when they are expected to fall due.

#### j) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

#### k) Taxation

The Fund is a complying superannuation fund within the provisions of the *Income Tax Assessment Act 1997* and accordingly income tax has been brought to account in this financial report. The Flexible Rollover Product is subject to the concessional tax rate of 15 per cent. Income Stream is subject to an income tax rate of 0 per cent under federal tax law, but is able to take advantage of franking credits. The 2016-17 Federal Budget required that from 1 July 2017 the tax exemption on earnings of assets supporting transition to retirement income streams would be removed. As a result Transition to Income Stream is subject to the concessional tax rate of 15 per cent.

#### Current tax

Current tax is calculated by reference to the amount of income tax payable or recoverable in respect of the taxable benefits accrued for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

#### Deferred tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial report and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities which affect neither taxable income nor accounting profit.

Deferred tax assets and liabilities are measured at the tax rates that are estimated to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Fund expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Fund intends to settle its current tax assets and liabilities on a net basis.

# 1) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

# m) Foreign currency

The functional and presentation currency of the Fund is Australian dollars, which is the Fund's primary currency. The Fund's performance is evaluated and its liquidity managed in Australian dollars. Therefore, the Australian dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

#### n) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

# (i) <u>Inflation Linked Securities Taxable</u>

The Inflation Linked Securities Taxable portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

# (ii) Property Taxable

The Property Taxable portfolio comprises two sub sectors:

# Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

# Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

# (iii) Australian Equities Taxable

The Australian Equities Taxable portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

# (iv) International Equities Taxable

The International Equities Taxable portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

# (v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and is managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

# (vi) Diversified Strategies Growth Taxable

The Diversified Strategies Growth Taxable asset class incorporates two sub sectors:

# Private Markets Taxable

The Private Markets Taxable portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and

Venture Capital Valuation Guidelines Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# Core Infrastructure Taxable

The Core Infrastructure Taxable portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# (vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates three sub sectors:

#### Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

# (viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

# (ix) Socially Responsible

The Socially Responsible portfolio actively incorporates the consideration of environmental, social and governance factors in their investment decisions and avoids investing in companies operating in areas of high negative social impact. The portfolio

comprises investments in equities listed on Australian and international share markets and is invested and managed by external managers along with a number of international and domestic pooled fund investments.

Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

# o) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Fund's funds pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2022, Funds SA managed seven (2021: eight) distinct investment options for the Fund which were available to investors, each differing by strategic asset allocation:

- · High Growth
- Balanced
- Moderate
- Stable (previously known as Conservative)
- Capital Defensive
- Cash
- Socially Responsible

Reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to each of the investment options discussed in the preceding paragraphs.

#### p) Significant accounting judgements, estimates and assumptions

The preparation of the Fund's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

# Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

# q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA, consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in note 1. above, the investments of the fund, are managed by Funds SA. Funds SA, in turn is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

# 3) Member benefit liabilities

Members are defined contribution members and bear the investment risk relating to the underlying assets and unit prices used to measure the member liabilities. Member account balances are determined by unit prices that are determined based on the underlying investment movements. Unit prices are updated daily. Refer to Note 16 for the Fund's management of the investment risks.

	Flexible Rollover Product		Income	Stream	Totals				
	2022	2021	2022	2021	2022	2021

#### 5) Fair value of financial instruments

# Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs, and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

# Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

# Financial assets at fair value through profit or loss – Level 2

Level 1 and level 3 are not relevant to the Scheme

#### 13) Administration Fee Reserve

The surplus attributable to administration fees for both Income Stream and Flexible Rollover Product included in funds under management were initially recognised in March 2014 as Administration Reserves. The reserves are credited with administration fees deducted from member accounts and debited with the costs incurred in administering the funds.

	Flexible Rollover		Income Stream		Totals	
	Proc	luct				
	2022	2021	2022	2021	2022	2021
	\$000	\$000	\$000	\$000	\$000	\$000
Opening balance	5 576	(202)	17 285	19 987	22 861	19 785
Investment earnings (i)	(223)	102	(649)	3 941	(872)	4 043
Administration fees	1 252	1 120	3 628	3 372	4 880	4 492

Transfer to/(from) Reserve (ii)	$(1\ 093)$	5 546	(7 883)	(6 857)	(8 976)	$(1\ 311)$
Closing balance	4 448	5 576	9 972	17 285	13 720	22 861

<sup>(</sup>i) The Administration Reserves are notionally invested in the Balanced Option. The rate of return on earnings were FRP: -4.92 per cent (2021: 19.44 per cent), IS -5.78 per cent (2021: 21.30 per cent) and TRIS -2.64 per cent (2021: 19.9 per cent).

# 14) Insurance Reserve

The surplus attributable to the insurance pool for the Flexible Rollover Product was initially recognised in March 2014 as an Insurance Reserve and operates on a self insurance basis. This reserve is credited with insurance deductions from member accounts and debited with the value of benefits paid to members. Insurance is not offered through Income Stream.

	Flexible	Rollover	Income Stream		Totals	
	Proc	luct				
	2022	2021	2022	2021	2022	2021
	\$000	\$000	\$000	\$000	\$000	\$000

Reserve (ii)		926)				
Closing balance	1 244	757	-	-	1 244	757

<sup>(</sup>i) The Insurance Reserve is notionally invested in the Balanced option. The rate of return on earnings was -4.92 per cent (2021: 19.44 per cent).

<sup>(</sup>ii) The Flexible Rollover Product amount relates to the Board approved reversal of the transfers of accumulated investment earnings from the Triple S Scheme's Insurance Reserve (\$1.1 million). The Income Stream amount relates to the Board approved reversal of the transfers of accumulated investment earnings from the Triple S Scheme's Insurance Reserve (\$7.9 million).

#### 15) Operational Risk Reserve

The Operational Risk Reserves (ORR) for Income Stream and Flexible Rollover Product were established at 31 December 2012 at 0.20 per cent of funds under management. From April 2016, members were charged a fee (0.04 per cent FRP, 0.05 per cent IS/TRIS) via a reduction to the unit prices in order to build the reserves to a target rate (0.45 per cent FRP, 0.20 per cent IS/TRIS) of funds under management. From March 2018, the fee charged to FRP members was increased from 0.04 per cent to 0.05 per cent, IS/TRIS remained unchanged at 0.05 per cent until June 2019. From July 2019 to December 2019 the fee charged to IS/TRIS members was reduced to 0.025 per cent, from January 2020 the rate was further reduced to 0.0125 per cent and remained unchanged for the year ended 30 June 2022. The FRP rate again remained unchanged at 0.05 per cent for the year.

Closing balance	5 678	5 072	4 118	4 923	9 796	9 995

<sup>(</sup>i) The ORRs are notionally invested in the Balanced Option. The rate of return on earnings were FRP: -4.92 per cent (2021: 19.44 per cent), IS -5.78 per cent (2021: 21.30 per cent) and TRIS -2.64 per cent (2021: 19.9 per cent).

# 16) Financial risk management objectives and policies

The Fund's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Fund and is in accordance with the Fund's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Fund's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk.

The nature and extent of the financial instruments employed by the Fund are discussed below. This note presents information about the Fund's exposure to each of the above risks, the Fund's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Fund's investment risk management framework.

The Fund's investment risk management policies are established to identify and analyse the risks faced by the Fund, including those risks managed by the Fund's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities.

The Board receives regular reports from Funds SA concerning compliance with the Fund's investment objectives.

# a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon
  of each.

# (i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Fund's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are fully hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are partly hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above.

# (ii) <u>Interest rate risk</u>

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Fund's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

# (iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As the Fund's financial instruments are valued at fair value with changes in fair value recognised in the income statement, all changes in market conditions will directly affect investment revenue.

The Fund's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

# (iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in each investment option. The following tables show the standard deviation around expected nominal returns for each investment option.

# **Income Stream**

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have a zero per cent tax rate applied and includes franking credits.

Stable Tax-Exempt <sup>(i)</sup>	4.1	5.1	160 121	8 166

<sup>(</sup>i) Stable was previously known as the Conservative option.

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the income statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

#### b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund.

The fair value of financial assets, included in the statement of financial position represents the Fund's maximum exposure to credit risk in relation to those assets. Funds SA is the Fund's only significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Fund does not have any assets which are past due or impaired and there is no concentration of credit risk other than Funds SA.

# c) Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation.

For the Fund's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions,
- a large proportion of each investment product is invested in highly liquid investments such s actively traded equities, unit trusts or securities with short-term maturities,
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met,
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Fund itself, the liquidity position is monitored on a daily basis. The Fund's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

#### **Super SA Retirement Investment Fund**

The following tables summarise the expected maturity profile of the Fund's financial liabilities based on the earliest date on which the Fund can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 Months \$000	Total Contractual Cash Flows \$000	Carrying Amount Liabilities \$000
2022	φοσο	φοσο	φοσο
Benefits payable Payables <sup>(i)</sup>	16 349	16 349	16 349
Vested benefits(ii)	6 137 985	6 137 985	6 137 985
Total	6 154 334	6 154 334	6 154 334
2021			
Benefits payable	8 821	8 821	8 821
Payables <sup>(i)</sup>	-	-	-
Vested benefits <sup>(ii)</sup>	6 151 084	6 151 084	6 151 084
Total	6 159 905	6 159 905	6 159 905

- (i) Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges; Auditor-General's Department audit fees).
- (ii) Vested benefits have been included in the "Less than 3 months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

#### d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

#### 17) Unallocated to members' accounts

Defined contribution funds carry a proportion of amounts yet to be allocated. This unallocated amount arises because the financial report of the Fund is prepared on an accrual basis while monies are allocated to members on a cash basis.

The Fund also values the investments reported in the financial statements at fair value (refer Notes 2(c)(e) and 5), while the unit prices used to determine the member benefit liabilities are based on the underlying investment movements using redemption value (refer Note 3). The redemption value is adjusted for disposal costs. This difference in valuation methods is reflected in the investment allocation amount in the statement of financial position.

#### **Super SA Retirement Investment Fund**

#### 18) Segment information

The Fund operates in one reportable segment, being the provision of benefits to members. The Fund also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Fund operates from Australia only, the Fund, through its investment managers Funds SA, has investment exposures in different countries and across different industries. Revenue derived from interest and the realised and unrealised changes from the different segments is reflected in the value of investments.

## 19) Related parties

#### a) Key management personnel

The key management personnel of the Fund includes the Treasurer, Board members and the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Fund.

#### b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance or the Board, therefore their compensation is disclosed in the respective financial reports.

## c) Transactions with key management personnel and other related parties

There were no transactions requiring disclosure for key management personnel or related parties.

#### d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

## 20) Events after the reporting period

There were no significant events after the reporting period.

#### Super SA Retirement Investment Fund

#### Certification of the financial statement

#### We certify that the:

- financial statements of the Super SA Retirement Investment Fund:
  - are in accordance with the accounts and records of the Fund,
  - comply with relevant Treasurer's instructions,
  - comply with relevant accounting standards, and
  - present a true and fair view of the financial position of the Fund at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Fund for the financial year over its financial reporting and its preparation of the financial statements have been effective.

To the Board Member
South Australian Superannuation Board
South Australian Ambulance Service Superannuation Scheme

#### **Opinion**

I have audited the financial report of South Australian Ambulance Service Superannuation Scheme for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Ambulance Service Superannuation Scheme as at 30 June 2022, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

## The financial report comprises:

- a Statement of Financial Position as at 30 June 2022
- an Income Statement for the year ended 30 June 2022
- a Statement of Changes in Member Benefits for the year ended 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Board Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office and the Director, Finance, State Superannuation Office.

#### **Basis for opinion**

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of South Australian Ambulance Service Superannuation Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

#### Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 9 of schedule 3 of the *Superannuation Act 1988*, I have audited the financial report of South Australian Ambulance Service Superannuation Scheme for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

• identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the South Australian Ambulance Service Superannuation Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue

The Statement of Cash Flows should be read in conjunction with the accompanying notes.

#### **Notes to the Financial Statements**

#### 1) Objectives and funding

## a) South Australian Ambulance Service Superannuation Scheme

On 29 June 2006, the Treasurer declared the South Australian Ambulance Service Superannuation Scheme (the Scheme) a Scheme and Fund established pursuant to Clause 2 of Schedule 3 of the *Superannuation Act 1988* (the Act). The net assets of the SA Ambulance Service Superannuation Fund (the former scheme) as at 30 June 2006 were transferred to the Scheme. The Scheme is an exempt public sector superannuation scheme in terms of schedule 1AA of the Superannuation Industry (Supervision) Regulations 1994 (Cwlth). The Scheme is a taxed scheme by virtue of schedule 4 of the Income Tax Assessment Regulations 1997 (Cwlth).

The Scheme is governed by a Trust Deed and Rules pursuant to the Act and became effective from 1 July 2006. The Scheme's membership includes contributory, non contributory, spouse, and preserved members. The main benefit for contributory members is a defined benefit. Non contributory, spouse and preserved members are entitled to accumulation benefits. The Scheme provides benefits to members on retirement, resignation, death, permanent or temporary disablement and serious ill health.

Member and employer contributions are deposited by the Treasurer into the fund established for the Scheme (the Fund), which is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA). The Scheme was closed to further new members with effect from 1 July 2008.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

#### b) South Australian Superannuation Board

Pursuant to Clause 2(1)(d) of Schedule 3 of the Act, the Treasurer declared the South Australian Superannuation Board (the Board) the Trustee of the Scheme from 1 July 2006. As Trustee of the Scheme, the Board is responsible for administering the Trust Deed and Rules.

## c) Superannuation Funds Management Corporation of South Australia

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995* (the Funds SA Act). Funds SA is responsible for the investment and management of the Fund pursuant to strategies formulated by Funds SA.

Pursuant to Clause 2(1)(c) of Schedule 3 of the Act, the Treasurer declared the Fund to be invested and managed by Funds SA from 1 July 2006.

For further information on the investment of the Scheme's funds, reference should be made to the Fund in the annual report of Funds SA. The financial report of Funds SA discloses the investment assets, liabilities, income and expenses relating to the investment activities of Funds SA.

## d) Funding Arrangements

For the year ended 30 June 2022, contributory members contributed 5 per cent of post tax salary or 5.9 per cent of pre tax salary. Members could also make additional voluntary contributions on either a pre tax or post tax basis. The employer contributed at the rate of 12 per cent of member salaries. For members who were entitled to the SA Ambulance Service Award superannuation benefit under the Scheme, the employer contributed an additional 3 per cent of salaries (3 per cent for Elective Services employees and Emergency Services staff).

Non contributory members are employees employed on a casual basis or those employees who elected prior to 30 June 2006 to not be a defined benefit member. Non contributory members may make voluntary post tax or pre tax contributions. The employer contribution for non contributory members is 10 per cent (2021: 9.5 per cent) of salary in order to satisfy the Superannuation Guarantee requirements under Commonwealth law.

The employer contributions above are in line with the 30 June 2020 triennial actuarial review recommendations and were effective on 1 July 2021. The next triennial actuarial review will be performed as at 30 June 2023.

Provision of insurance cover for Death, Total and Permanent Disablement, Serious Ill-Health and Income Protection under a self-insurance arrangement within the Scheme commenced from 1 July 2006. The weekly voluntary insurance contribution rate was retained at \$1.35 per unit, as part of the triennial actuarial review, the recommended self insurance reserve is to be maintained at 200 per cent of one year's expected claim cost.

The asset coverage of vested benefits as at 30 June 2022 met the target of 105 per cent.

#### 2) Significant accounting policies

## a) Basis of accounting

This financial report is a general purpose financial report. The financial statements have been prepared in accordance with relevant Australian Accounting Standards, and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the Public Finance and Audit Act 1987 (PFAA), except as provided below.

This financial report has been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

This financial report is presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The Scheme is a not-for-profit entity for the purpose of preparing financial statements.

## b) Impact of standards and statements not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2022 reporting period. The assessment of the impact of these new standards and interpretations is set out below.

The Board has assessed the impact of new and changed Australian Accounting Standards Board Standards and Interpretations on behalf of the Scheme. There are no Accounting Policy Statements that are not yet effective. The material impacts on the Scheme are outlined below.

AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard replaces the reduced disclosure requirements previously included in all Australian Accounting Standards with simplified disclosure requirements which will apply to Tier 2 entities.

AASB 1053 Application of Tiers of Australian Accounting Standards will still apply in conjunction with AASB 1060. Application of AASB 1060 will significantly amend the content of Tier 2 financial reports.

The Scheme is not a Tier 2 financial reporting entity. The Board has assessed the impact of the amendments of AASB 1060, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-2 Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The standard removes the ability for certain for-profit private sector entities to self-assess their financial reporting requirements and prepare special purpose financial statements (SPFS) when they are required to prepare financial statements that comply with Australian Accounting Standards (AAS).

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2021-1 Transition to Tier 2: Simplified Disclosures for Not-for-Profit Entities

The standard applies to reporting periods beginning on or after 1 July 2021. The Standard amends new elements of AASB 1053 and amends AASB 1060 for first-time application to provide not-for-profit entities with optional relief from presenting comparative information in the notes to the financial statements where the entity did not disclose the comparable information in its most recent previous general purpose financial statements. This relief is only applicable where AASB 1060 is early adopted.

Amendments to AASB 1053 highlight that the relief set out in Appendix E of AASB 1053 is available only to for-profit private sector entities.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-7 Amendments to Australian Accounting Standards - Covid-19 Related Rent Concessions: Tier 2 Disclosures

This standard applies to reporting periods beginning on or after 1 July 2021. AASB 16 (June 2020) provides a practical expedient to elect not to assess whether rent concessions are lease modifications and allows entities to apply a change in lease payments resulting from rent concessions as per the requirements of AASB 16. This practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and where certain conditions are met. Additional disclosures were required where the practical expedient was applied. AASB 2020-7 amends AASB 16 to include relief for Tier 2 entities from the requirement of the additional disclosures required by paragraph 60A and introduces these disclosures in AASB 1060.

The Scheme does not hold any leases therefore AASB 2020-7 does not apply. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

AASB 2020-9 Amendments to Australian Accounting Standards – Tier 2 Disclosures: Interest Rate Benchmark Reform (Phase 2) and Other Amendments

This standard applies to reporting periods beginning on or after 1 July 2021. This Standard amends AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities to provide relief in the first reporting period in which an entity applies AASB 2020-8 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2. An entity is not required to disclose the information that would otherwise be required by paragraph 106(b) of AASB 1060 in respect of the accounting policy changes made in applying AASB 2020-8.

The Scheme operates on a not-for-profit basis and is not adopting AASB 1060. The Board has assessed the impact of the new standard on the Scheme, and has determined there will be no impact on the Scheme's financial statements.

#### c) Financial assets and liabilities

## (a) Classification

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme, if any, do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

Financial instruments designated at fair value through profit or loss upon initial recognition

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

#### (b) Recognition

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, i.e. the date that the Scheme commits to purchase or sell the asset.

#### (c) Initial recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the income statement, unless specified otherwise.

## (d) Subsequent measurement

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

## (e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement note 4.

#### (f) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits as defined above.

## (g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Scheme prior to the end of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

## (h) Benefits payable

Benefits payable are valued at fair value and relate to members who have ceased employment and provided the Scheme with appropriate notification on or prior to 30 June 2022 but paid after 30 June 2022. These also include income protection payments payable on or prior to 30 June 2022 but paid after 30 June 2022.

## (i) Insurance liabilities

The Scheme provides death and disability benefits to Contributory Members in Service, members may also purchase voluntary insurance. Premiums for voluntary insurance are deducted from insured members' accounts and are paid into a dedicated insurance reserve in order to meet claims as they arise. An actuarially determined percentage of defined benefit employer contributions are also paid into the reserves. The Scheme ultimately self-insures this risk as the Board believes it is appropriate in light of the Scheme's present membership and reserve levels. The table below outlines the net results of the Scheme's insurance activities during the year:

#### **Insurance activities**

	2022	2021
	\$000	\$000
Insurance contract revenue	459	329
Insurance contract claims expenses	(346)	(283)
(Increase)/decrease in insurance liabilities	(10)	(39)
Net result from insurance activities	123	7

## (j) Significant estimates made in measuring insurance contract asset and liabilities

The Scheme uses the services of an actuary to determine its insurance contract assets and liabilities. An actuarial valuation involves making various assumptions about the future. Actual events in the future may differ from these assumptions. The most recent actuarial valuation was performed for the triennium ending 30 June 2020. The value of insurance liabilities between actuarial valuation dates is determined by evaluating the expected claims over the next year based on the assumptions adopted at the most recent actuarial valuation.

The key assumptions used in measuring the insurance contract liabilities are:

- mortality and disability rates determined by Super SA based on the experience of a large number of public sector employees in South Australia, adjusted to estimate the Scheme's claim experience,
- the number and amount of insurance claims yet to be reported to the Scheme, relating to the period prior to the reporting year end.

The key factors or uncertainties that impact the key assumptions above are:

- if mortality and/or disability rates increase, it will result in an increase in insurance liabilities as a result of higher claims and will lead to a decline in the net assets of the Scheme.
- higher than expected claims reported to the Scheme will result in an increase in insurance liabilities and will lead to a decline in the net assets of the Scheme, and
- a better than expected claims experience will result in lower liabilities and an increase in net assets of the Scheme.

The impact of uncertainties around the key assumptions is largely met from the insurance reserves in the Scheme. The adequacy of the insurance reserves are considered as part of the actuarial valuation.

## (k) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

#### (l) Taxation

The Scheme is a complying superannuation fund within the provisions of the *Income Tax Assessment Act 1997* and accordingly the concessional tax rate of 15 per cent has been applied.

#### Current tax

Current tax is calculated by reference to the amount of income tax payable or recoverable in respect of the taxable benefits accrued for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

#### Deferred tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial report and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities which affect neither taxable income nor accounting profit.

Deferred tax assets and liabilities are measured at the tax rates that are estimated to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Scheme expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Scheme intends to settle its current tax assets and liabilities on a net basis.

#### (m) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

#### (n) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, which is the currency of the primary economic environment the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

#### (o) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

#### (i) Inflation Linked Securities Taxable

The Inflation Linked Securities Taxable portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

## (ii) Property Taxable

The Property Taxable portfolio comprises two sub sectors:

## Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

## Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

## (iii) Australian Equities Taxable

The Australian Equities Taxable portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

## (iv) International Equities Taxable

The International Equities Taxable portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

#### (v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and are managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

## (vi) Diversified Strategies Growth Taxable

The Diversified Strategies Growth Taxable asset class incorporates two sub sectors:

#### Private Markets Taxable

The Private Markets Taxable portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### Core Infrastructure Taxable

The Core Infrastructure Taxable portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

## (vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates three sub sectors:

## Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

## Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

#### (viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

## (p) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2022, Funds SA managed the Balanced investment for the fund and reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to the investment discussed in the preceding paragraphs.

#### (q) Member liabilities

Member liabilities are measured at the amount of accrued benefits.

Defined benefit member liabilities are measured as the amount of a portfolio of investments that would be needed, as at the reporting date, to yield future net cash inflows that would be sufficient to meet accrued benefits as at that date when they are expected to fall due.

Defined contribution member liabilities are measured as the amount of member account balances as at the reporting date.

## (r) Significant accounting judgements, estimates and assumptions

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

#### Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

#### Valuation of defined benefits member liabilities

The amount of member liabilities in relation to defined benefits has been determined using actuarial valuation techniques and assumptions. An actuarial valuation involves making various assumptions about the future. Actual developments in the future may differ from these assumptions. The assumptions include member turnover, future investment returns, pension indexation rates, mortality rates and future salary increases. Due to the complexities involved in the valuation and its long term nature, defined benefit member liabilities are highly sensitive to changes in these assumptions. Assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, the actuary considers an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.

The mortality assumption is based on publicly available mortality tables. Future salary increases are based on the Wage Price Index produced by the Australian Bureau of Statistics and in consultation with the employer-sponsors.

#### (s) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA, consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in note 1. above, the investments of the scheme, are managed by Funds SA. Funds SA, in turn is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

#### 3) Defined benefit member liabilities

Actuarial valuations to determine the defined benefit members' accrued liabilities are conducted at least every three years. The most recent actuarial valuation was undertaken by Esther Conway (FIAA), an actuary with Mercer Consulting (Australia) Pty Ltd. The actuarial valuation was undertaken as at 30 June 2020 with the next triennial valuation to be undertaken as at 30 June 2023.

The actuarial valuation of member liabilities reflects the actuarial assessment of the benefits accrued up to the reporting date and payable to members on retirement, resignation, death and disability. The accrued liabilities are the present values of expected future benefit payments arising from membership of the Scheme up to 30 June 2022.

The annual update of the defined benefit member liability has been determined by reference to the expected future salary level increases (2.5 per cent; 2021: 2.5 per cent) and by application of the market-based, risk-adjusted discount rate after tax (4.25 per cent; 2021: 4.25 per cent).

	<b>2022</b> \$000	<b>2021</b> \$000
Defined benefit member liabilities	192 810	198 075

The Board uses sensitivity analysis to monitor the potential impact of changes to key variables about which assumptions need to be made. The Scheme has identified two assumptions (being the discount rate and the rate of salary adjustment) for which changes are reasonably possible that would have a material impact on the amount of the defined benefit member liabilities.

- (i) The assumed discount has been determined by reference to the investment returns expected on an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.
- (ii) The assumed annual salary adjustment has been determined by reference to the Wage Price Index produced by the Australian Bureau of Statistics and in consultation with the employer-sponsor.

The other variables about which assumptions have been made in measuring defined benefit member liabilities and for which changes are not considered reasonably possible, or for which reasonably possible changes would not be expected to have a material effect, include: pension indexation rates, mortality rates and resignations.

The following table outlines the sensitivity estimates of the total member liabilities (both defined benefit (\$198 million) and defined contribution (\$72 million)), provided by the Scheme actuary, on the net earnings and salary growth.

	Member Liability	Change in member benefit	Change in member benefit liability
	result \$000	liability \$000	%
Scenario	263 483		
Salary growth less 0.5%	261 871	(1 612)	(0.6)
Net earnings less 0.5%	266 094	2 611	1.0

As advised in Note 1(d), employer contributions for the year have been made at the rate determined by the Scheme actuary.

#### **Vested benefits**

Vested benefits are benefits that are not conditional upon continued membership of the Scheme (or any factor other than resignation from the Scheme) and include benefits which members were entitled to receive had they terminated their Scheme membership as at the reporting date.

	<b>2022</b> \$000	<b>2021</b> \$000
Defined benefit vested benefits	190 528	198 170

#### 4) Defined contribution member liabilities

The employee funded, defined contribution component for the defined contribution accrued liability is the balance of the employees' contribution accounts as at the end of the financial year. These accounts are valued using unit prices that are determined by the underlying investment movements.

	2022	2021
	\$000	\$000
Defined benefit vested benefits	70 673	72 294

Defined contribution members bear the investment risk relating to the underlying assets and unit prices. Unit prices are updated twice weekly.

	2022	2021
	\$000	\$000
Defined benefit vested benefits	190 528	198 170
Defined contribution member liabilities	70 673	72 294
<b>Total vested benefits</b>	261 201	270 464

Refer to Note 17 for the Scheme's management of the investment risks.

#### 5) Fair value of financial instruments

## Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs, and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

## Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

	2022	2021
	\$000	\$000
Financial assets at fair value through profit or loss – Level 2	2	
Level 1 and level 3 are not relevant to the Scheme		
Unlisted managed investment schemes	292 747	320 722
Funds SA	292 747	320 722
6) Value and movement of investments by investment option		
	2022	2021
	\$000	\$000
Investments at 1 July	320 722	274 200
Change in Balanced Taxable	(27.975)	46 522
Investments at 30 June	292 747	320 722

## 7) Receivables

1)	Receivables		
		2022	2021
		\$000	\$000
		4000	φσσσ
	GST recoup from ATO	11	8
	Other receivables	(1)	3
		10	11
8)	Payables

9)	Investment expenses		
		2022	2021
		\$000	\$000
	Towns of the safe arms and	1.052	1.0/1
	Investment expenses	1 053	1 061

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

## 10) Administration expenses

	391	382
Other expenses (ii)	32	27
Administration expenses (i)	359	355
	2022 \$000	\$000 \$000

<sup>(</sup>i) Administration expenses comprises the costs incurred by the Department of Treasury and Finance in administering the Scheme, which are met in the first instance from the Department of Treasury and Finance Operating Account. The Board recovers a share of the administration cost from the Scheme.

## 11) Auditors' remuneration

	\$000	\$000
Audit fees paid or payable	25	25

Audit fees paid (or payable), \$25 100 GST exclusive (2021: \$25 000), relate to the Auditor-General's Department work performed under the PFAA. No other services were provided by the Auditor-General's Department.

<sup>(</sup>ii) Other expenses include Auditor's remuneration. Refer Note 11.

## 12) Employer contributions

	2022 \$000	2021 \$000
Employer contributions	6 534	7 576
Insurance premiums	491	291
Administration charges	491	291
	7 516	8 158

## 13) Reconciliation of cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash and deposits held in a Special Deposit Account with DTF. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	2022 \$000	2021 \$000
Cash and cash equivalents	665	839
Reconciliation of net cash from operating activities		
Net operating result	(15 959)	21 398
Adjustments for:		
Change in investments measured at fair value	15 900	(59 663)
Investment expenses	1 053	1 061
Insurance recognition	(123)	(7)
(Increase)/decrease in receivables	ĺ	(3)

Income tax (expense)/benefit	2 917	(5 820)
(b) Current tax liabilities		
Current years income tax provision	1 017	3 167
Current tax liabilities	1 017	3 167
( ) D. 6 . 1 . 1 ! 1 !!!!!		
(c) Deferred tax liabilities	, CE: 1 D ::	
The amount of deferred tax liability recognised in the Staten	nent of Financial Position	on at
reporting date comprises:	(4)	(4)
Accrued expenses	(4)	(4)
Prepaid contributions/contributions receivable	-	-
Realised capital losses carried forward	-	-
(discounted)	4 914	8 422
Unrealised capital gains/(losses) carried forward (discounted)	4 714	0 422
Deferred tax liabilities	4 910	8 418
Deterred tax habilities	4 710	0 410

The Scheme offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets.

#### 15) Insurance Reserve

The Scheme self insures and provides to Contributory Members in Service a benefit on death or total and permanent disablement (TPD) equal to the normal retirement benefit that would be payable if the member had continued in service to age 60. An income protection equal to 75 per cent of salary is payable for a maximum period of 24 months where a member becomes temporarily disabled before age 60. A member is also entitled to a benefit on Serious III Health equal to the greater of the early retirement benefit plus 5 per cent of salary for each year of service, and three times the member's salary. The Serious III Health benefit cannot exceed the benefit payable on TPD. The amount of salary is adjusted, if applicable, by the salary adjustment factor.

Members may purchase voluntary death and TPD insurance by applying for up to four units of insurance. The premium for each unit is \$1.35 per week per unit. The amount of cover for each unit is \$75 000 for ages up to 34 last birthday reducing to \$5 000 at age 64 last birthday.

	2022	2021
	\$000	\$000
Opening balance	1 675	3 295
Investment earnings/(loss) (i)	(75)	637
Premiums and charges	459	329
Benefit payments	(346)	(283)
Consultancy expenses	(6)	(3)
Operating result	32	680
Transfer (from) Reserve (ii)	-	$(2\ 300)$
Closing balance	1 707	1 675

<sup>(</sup>i) The Insurance Reserve is notionally invested in the Balanced option. The rate of return on earnings was -4.70 per cent (2021: 19.69 per cent).

## 16) Operational Risk Reserve

The Operational Risk Reserve is to be accumulated to 0.6 per cent of funds under management following a decision of the Board and in line with Prudential Standard SPS114.

	2022	2021
	\$000	\$000
Opening balance	830	694
Investment earnings/(loss) (i)	(35)	136
Payments from reserve	-	-
Operating result	(35)	136
Transfer to/(from) Reserve		-
Closing balance	795	830

<sup>(</sup>i) The Operational Risk Reserve is notionally invested in the Balanced option. The rate of return on earnings was -4.70 per cent (2021: 19.69 per cent).

<sup>(</sup>ii) The amount relates to the Board approved transfer out of accumulated investment earnings to the defined benefit assets.

#### 17) Financial risk management objectives and policies

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities.

The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

## a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

#### (i) <u>Currency risk</u>

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Fund's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are fully hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax Exempt and International Equities Passive Taxable asset classes are partly hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

## (ii) <u>Interest rate risk</u>

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Fund's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

## (iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As the Fund's financial instruments are valued at fair value with changes in fair value recognised in the income statement, all changes in market conditions will directly affect investment revenue.

The Fund's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

#### (iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for DB High Growth investment.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

2022	Expected Average Return	Market Risk	Average Funds Under Management \$000	Potential impact of market risk (+/-) on Income Statement \$000
2022				
<b>Investment Option</b> Balanced Taxable	5.6	9.0	306 735	27 606
	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement
	%	%	\$000	\$000
2021				
2021				

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

#### b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

#### c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions, and
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities.

For the Scheme itself, the liquidity position is monitored on a daily basis. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

The following tables summarise the expected maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 Months	Total Contractual Cash Flows	Carrying Amount Liabilities
	\$000	\$000%	\$000
2022			
Benefits payable	545	545	545
Payables <sup>(i)</sup>	177	177	177
Vested benefits(ii)	261 201	261 201	261 201
Total	261 923	261 923	261 923
2021			
Benefits payable	30	30	30
Payables <sup>(i)</sup>	236	236	236
Vested benefits(ii)	270 464	270 464	270 464
Total	270 730	270 730	270 730

<sup>(</sup>i) Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges, Auditor-General's Department audit fees).

<sup>(</sup>ii) Vested benefits have been included in the "Less than 3 months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

#### d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

## 18) Segment information

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment manager Funds SA, has investment exposures in different countries and across different industries. Revenue derived from interest and the realised and unrealised changes from the different segments is reflected in the value of investments.

## 19) Related parties

## a) Key management personnel

The key management personnel of the Scheme includes the Treasurer, Board members and the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Scheme.

#### b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance or the Board, therefore their compensation is disclosed in the respective financial reports.

## c) Transactions with key management personnel and other related parties

There were no transactions requiring disclosure for key management personnel or related parties.

## d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

#### 20) Events after the reporting period

There were no significant events after the reporting period.

#### Certification of the financial statement

#### We certify that the:

- financial statements of the South Australian Ambulance Service Superannuation Scheme:
  - are in accordance with the accounts and records of the Scheme,
  - comply with relevant Treasurer's instructions,
  - comply with relevant accounting standards, and
  - present a true and fair view of the financial position of the Scheme at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Scheme for the financial year over its financial reporting and its preparation of the financial statements have been effective.
